Lewis Trying to Use Short Work Week as a Lever Against Operators

By Harold W. Ward

WASHINGTON, Dec. 8.—(AP)—With mines producing 7,340,000 tons of coal a year under contract, John L. Lewis awaited fresh signers today as most of his miners took their first day off under the new three-day work week.

The United Mine Workers' leader is trying to use the short work period as a lever against operators still holding fast against his contract demands.

The small soft coal companies in the midwest and south which have accepted his terms since Tuesday have returned to a full five-day week and Lewis said yesterday that "additional tonnage will sign."

But major coal operators, producing nearly all the 550,000,000 tons mined in a year, still held fast. Lewis would have to crack their solid front before he could claim any important, major gain in the months-old dispute.

### Preferred Limited Week

Lewis and his UMW policy committee decided a week ago on the limited work week in preference to a full-fledged strike. This gave Lewis time to try to make the hard and soft coal operators yield to his new contract terms. The old contracts expired last July.

The mines are now operating only on Monday, Tuesday and Wednesday. During the rest of the week Lewis is allowing only the "irreducible minimum" of maintenance men to enter the pits.

Otherwise, terms and working conditions of the old contracts are being continued indefinitely.

The agreements Lewis signed Tuesday and Wednesday with the companies in Kentucky, Indiana, Illinois and Ohio call for a 15 cent increase in the welfare royalty, boosting it to 35 cents on every ton of coal produced and a 95-cent a day pay increase which gives the miner a basic daily wage of \$15.00.

### Use of Fund

The welfare fund finances pensions, disability payments and the like for UMW members. Lewis' demand for a boost in the royalty which operators pay into the fund has been one of the main stumbling blocks to any agreement with owners of big mines.

Negotiations between the union and hard coal operators employing 80,000 miners in eastern Pennsylvania resumed in New York this week, but with little progress to date.

Anthracite, used almost exclusively for domestic heating, is at the peak marketing season and hard coal operators would like to work their mines at high speed. The short work week hurts them especially at this time of year.

## Santa Claus to Be Back Saturday

Santa Claus will be back in Sedalia again Saturday, according to word received from him by the Chamber of Commerce. This time he is going to wander around through the Sedalia stores and look over the Christmas gifts, and while he is doing that he is going to be watching for all the good little girls and boys of this vicinity.

So, after 2:00 o'clock Saturday afternoon he may be seen by the youngsters some place in the business section, on the street or in the stores, and he will be listening to see if he can find out what they want most for Christmas.

## The Weather

CLOUDY

Increasing cloudiness and not so cold tonight. Lowest in lower 20s. Friday cloudy with light rain or snow beginning by afternoon. Highest in 30s.

Temperature: 7 a. m. 20 degrees; 2 p. m. 27 degrees.

### Thought for Today

Near, so very near to God,  
Nearer I cannot be;  
For in the person of his Son  
I am as near as He.

## MoPac Layoff Is Cut Down To 61 Men

Lumber Loss Also Not as Large As First Thought

The layoff of men in the reclamation department at the Missouri Pacific shops, created because of the destructive fire last Saturday, will affect only 61 men instead of the previously estimated 100. The fire loss to the stock lumber pile was also set at \$40,000 instead of the previously estimated \$100,000.

L. L. Studer, district storekeeper for the Missouri Pacific lines, under whose jurisdiction the reclamation plant falls, announced the above figures late Wednesday. Studer said that some machinery damaged in the fire has been re-claimed, and other equipment is being used in other buildings on the shop grounds by the department.

He also said that due to the temporary shifting of work on the shop grounds it has been possible to cut the anticipated layoff by 39 men. The 61 men are only temporarily off and as soon as arrangements can be made and the men can be used, they will be called back to work.

### Number of Volunteers

Studer also explained the lumber loss was much smaller because of the untiring work of volunteers who rushed to the stock lumber pile and in the face of flames began tearing down, systematically, the piles of lumber and carrying the heavy timbers back to the north fence, away from the fast eating flames. Thus, where these piles of lumber were removed, the opening created a break in the fire path, and the fire was held in check.

A complete survey was made Wednesday and the final analysis resulted in the \$40,000 loss figure.

Railway insurance adjusters have been working on the loss since Monday, checking on the fire loss.

Several officials of the Missouri Pacific lines have arrived in the city and are making inspections of the fire losses and discussing the future of the reclamation plant.

## Christmases Are Not so Merry

LONDON, Dec. 8.—(AP)—The Christmases are not so merry today.

A burglar entered the flat of Mrs. Phyllis Christmas and stole the £14 (\$39.20) she had saved to buy Christmas presents for Diana 8, and Richard Christmas, 7.

He also took £3 (\$8.40) that Diana and Richard had saved to buy presents for their mother.

### Have to Work Fast

JEFFERSON CITY, Dec. 8.—(AP)—Missourians who want to observe civil air patrol week are going to have to work fast.

With the press of a goose hunt earlier this week and other executive matters since Gov. Forrest Smith didn't get around to proclaiming the week until today.

Smith set it for Dec. 4 to Dec. 11—a week that's already half gone.

## Canada Has Banned Crime Comic Books

OTTAWA, Dec. 8.—(AP)—Canada has banned crime comic books.

The senate last night passed a bill banning the publication, distribution or sale of comic books that depict "the commission of crimes, real or fictional."

The House of Commons previously had passed the bill unanimously.

## Open Bids On Projects Of City Schools

Contractors To The Number Of Near 75 At Meeting

The Sedalia Board of Education met in the library of Smith-Cotton high school Wednesday night with approximately seventy-five contractors from Missouri and western Kansas to receive bids on the building projects for which bonds were voted about three years ago. The money kept out on interest since that time, involves more than \$700,000. Part of the fund has been expended for work on some of the public schools.

Bids were received, opened and read on the following six projects: Additions and alterations to the Smith-Cotton high school.

High school cafeteria. Auditorium-gymnasium, three classrooms and basement cafeteria additions to Horace Mann and concrete corridors and stairways in present building.

Auditorium-gymnasium and classroom addition to Whittier. (An alternate bid to include two additional classrooms and basement cafeteria.)

Hubbard shop addition (alternate bid to include remodeling of old auditorium and office in the grade school building to provide three additional classrooms and concrete corridor).

Broadway concrete corridors and stairways in present building changing auditorium from second floor to first.

Base bids on each project were received as follows:

1. General work.
2. Plumbing, sewerage and gas fitting.
3. Heating and ventilating apparatus.
4. Electric work.

### Are To Be Studied

An architect is analyzing and studying the summation of the individual bids submitted. The name of the company or contractor making the lowest and best bid will probably be made available at a board meeting Monday night.

The bids submitted are to be further considered and studied before any contracts are entered into. Some of the bids contained clauses that will require being properly construed and passed upon which will take a short period of time. The legal aspects come in for consideration and must be taken into account before any contracts are entered into. Action on presented bids must be taken within ten days.

### Check With Bid

All bids were accompanied, as required, with either a cashier check, certified check or a bid bond in amount equal to five per cent of the total amount of the bid.

Part of the work (concrete corridors and stairways at Broadway and Horace Mann) must be completed by September 1 and all projects are to be completed within twelve months. Otherwise the contractor is obliged for damages in the amount of \$25.00 for each day thereafter. Sundays and holidays excepted.

The board reserves the right to reject any and all bids. The successful bidder must pay for and deliver to the owner a performance or contract bond with an approved surety company, authorized by the board.

## Couple to Court, Complain 'Kids' Are Too Noisy

DALLAS, Dec. 8.—(AP)—Mr. and Mrs. Rea B. Moseley say kids have destroyed the peace and quiet of their neighborhood—and they're going to court against eight neighbors, all with one or more children.

The couple says the kids have "destroyed the peace and quiet... with horns, whistles, cowbells and especially screaming at the top of their lungs, in a manner not normal to usual play by said children."

A district court hearing is set for Dec. 28.

## Bodies of Nine Recovered From Wreck

Airliner Down Not Far From Benicia, Calif.

VALLEJO, Calif., Dec. 8.—(AP)—Bodies of six adults and three children have been recovered from the wreckage of an airliner, a ground party radioed today.

The radio was intercepted by the Benicia police department, Chief of Police Vincent Warren of Benicia said. The ground crew said the plane had not burned but the wreckage was spread over a wide area.

The California Arrow Airways plane crashed last night in hilly country shortly after a takeoff from the Oakland airport.

The scene was placed at six miles from here and about two to four miles from Benicia.

The sheriff's branch office here said it was unable to confirm the number of dead but that there were no survivors.

### Watched Rescue

In Benicia, the rescue operations were watched through powerful field glasses by Mrs. Elizabeth Peltier. She telephoned the Vallejo Times-Herald that the ground crew drove within a mile of the wreckage.

At Burbank, Calif., the Civil Aeronautics Board listed these passengers aboard the plane:

James S. Garnett, pilot. Meade Dillon, co-pilot. Susan Devore, stewardess. Mrs. George Batchelor and son, Pat, Torrance.

Mrs. Elsie Kimball and infant son Pasadena.

(In Pasadena, John Morrison said his daughter, Mrs. Marian Kimball, and two sons, Leond III, 3 years old, and John Wesley, 1, were aboard.)

A Mr. Fighey, Laguna Beach.

## No Liquor Bottles As Candle Holders

COLUMBUS, O., Dec. 8.—(AP)—Liquor bottles used as candle holders are taboo in Ohio State University fraternity houses today.

The order to get rid of the "ornamental candle holders" was issued yesterday by Myrlyn H. Ross, University fraternity adviser, to the council of fraternity presidents.

"We must make it clear to outsiders that alcohol is not being used in the houses," he said. He referred to the slaying Nov. 12 of Jack T. McKeown, after a Delta Tau Delta fraternity party.

## 'Women Are Here to Stay' Says Father of 4th Daughter

By Arthur Edson

WASHINGTON, Dec. 8.—(AP)—What's the matter with girls? Why is it that when girl babies are born, the average congratulator congratulates as if he really didn't mean it? And why is it that the proud father sometimes acts as if he were embarrassed about it all?

There's no reason for this. I have wound up a little research project, and can faithfully report: Women are here to stay.

Right now there are 800,000 more females (a Census Bureau word, not mine) than males in the U. S.

Eight women in the House of Representatives, and a ninth will join them in January. Margaret Chase Smith (R-Me) is a senator. And at least one other woman, Rep. Helen Gahagan Douglas (D-Calif.), wants to be a senator too.

### Fill All Posts

Mrs. Smith has said she thinks it would be nice for the Republicans to run a woman for vice-president. She was too shy to mention names, but I don't think she meant Mrs. Alben W. Barkley.

Women fill all sorts of lesser posts. They are truckers, glassblowers, cops, printers, mail carriers, tanners, steamfitters, embalmers and Western Union (you'll excuse the expression) boys.

## Irish Orphan Announces He is 'Jimmy'

Ditches Name of 'Tommy' Given by Foster Parents

By George Sitterley

JEFFERSON CITY, Dec. 8.—(AP)—A solemn little son of Erin began an exciting new chapter of life today.

Yesterday he was Tony Markey, 5½ year old Irish orphan. Today he is Jimmy King Prior because he put his foot down hard.

On the plane from Dublin to New York the stewardess found out his name was James Anthony Markey. She called him Jimmy and he liked it fine.

He liked it so much that this morning, dressed in his blue flannel pajamas and dark red robe, he stubbornly ditched the name "Tommy" that his foster parents had chosen.

He announced he was Jimmy now and forever. The Priors gave in and Tony—whooops, Jimmy—cleaned up three bowls full of oatmeal and an egg. His foster parents gave him a lot of attention and a raft of toys. Their friends and relatives brought in more playthings.

### Church Was Next

After breakfast he said church was next. So Mother Prior took him to St. Peter's Catholic church. Tony was a Catholic in Ireland and the Priors are Catholic, too.

He arrived here yesterday, togged out in a new pair of long trousers, a warm tweed topcoat, blazingly bright socks, wool muffer and jaunty tam.

Sure, and he had a bright bit of shamrock on his lapel. The arrival was bewildering. Tony stood on the steps of the train as it stopped here late on a chilly December day. His new mother was right behind him.

Solemnly, he threw a snappy salute as his foster father rushed up to the train. Then everything went to pieces.

### Gave Him Presents

People shouted at him, thrust presents at him, urged him to smile for men with cameras.

And the boy who was Tony yesterday and today is, in his own brogue, Jimmy King "Plier," tried to smile. His courage fought with his little boy desire to hide from all this.

Courage won.

His chubby cheeks creased into a grin. Someone gave him back the brand new football he had dropped. The frosty air and his own excitement sharpened the color in his cheeks.

His blue eyes sparkled. One thing he's got to do soon, though, is get in touch with another young Irishman who helped do all this for him. Charley Robertson, 6, not so long ago an orphan, too, didn't forget Tony.

### Remembered His Buddy

Charley, along with three other parent-less Irish youngsters, was adopted last spring by Marion Robertson and his wife. Charley settled down to a new life in Marshall, Mo.

But he kept remembering his buddy in the Irish orphanage. Every night, Charley said a prayer for Tony.

The Priors and the Robertsons are friends. The Priors were childless but eager to become parents.

It was a natural for Tony.

He was met by his new mother in New York the other day. He rode endlessly across a big and exciting American land to his new home here. Everyone was glad to see him. The conductor on the train called him "brother."

Soon he's got to see Charley and thank him.

## Real Blast of Winter Coming

KANSAS CITY, Dec. 8.—(AP)—The first real blast of winter is headed for Missouri.

Snow, sleet and freezing rain are moving in on the heels of a cold wave that sent the mercury down to 11 in some spots of the state this morning.

In a special warning at 10 a. m. the district forecast center here forecast light snow for western Missouri tonight and Friday, spreading eastward over eastern Missouri Friday.

This precipitation, forecaster J. R. Lloyd said, probably will turn to sleet or freezing rain in the southern portions of the state tonight and in the northern sections Friday.

While the precipitation is expected to be light, Lloyd warned that highways in the affected area are likely to become slippery as a result of freezing rain.

Kirkville grabbed the cold spot position from Tarkio this morning. The mercury there dipped to 11, while at Tarkio it went to 13. Other low readings were: Chillicothe 14, Columbia 17, Marshall and New Florence 18, Rolla and St. Joseph 19, St. Louis, Springfield and Kansas City 22, Joplin 23 and West Plains 25.

## New York City Doesn't Have Enough Water

NEW YORK, Dec. 8.—(AP)—The world's biggest city does not have enough water today to let its residents wash their cars.

As authorities worked to plug the holes in New York's fast-emptying water barrel, new restrictions were imposed to conserve remaining supplies.

For the first time, the pinch really was being felt directly by the public.

All "non-essential" uses of water were out, by order of water commissioner Stephen J. Carney.

That all automobile washing be "completely stopped."

## Gas Pipeline Explodes Near Centralia

Plant Damaged; Nine Men Working, None Injured

CENTRALIA, Mo., Dec. 8.—(AP)—A natural gas pipeline blew out near here today interrupting the flow of gas to many cities in Illinois, Indiana and Michigan.

A 24-inch line carrying gas under 515 pounds of pressure broke at the Panhandle Eastern Pipeline company's compressor plant facilities and was seen from cities as far away as 150 miles.

At Kansas City, O. W. Morton, vice president in charge of operations, said supplies to distributing companies east of the Centralia station would be cut to 50 per cent for the next few days.

Larger centers affected by the break, he said, were Detroit, Mich., Fort Wayne and Muncie, Ind., and Decatur and Springfield in Illinois. He added that there were many smaller cities obtaining their supplies along the route of the lines.

### One Line Ruptured

While only one of the three lines was ruptured, the fire damaged facilities handling the flow from two other lines also going east.

"The eastward flow which stopped at 5 a. m., has not been resumed," Morton said at 10:30 a. m. "It looks now like it will be noon before there will be even a trickle going through. For the next few days, at least, the supply going through will be only 50 per cent of normal."

He explained that crews were flown to Centralia this morning to install by-pass facilities. However, without the compressor equipment the flow will be greatly reduced.

Company employees at the plant estimated the total damage at about \$100,000.

### Burned Several Hours

The fire burned for several hours until workmen could close the valves on each side of the plant, which is four miles east of here.

Nine men at work escaped injury.

The main cooling tower at the plant was destroyed and two others damaged. A warehouse burned to the ground.

Morton said the heat also destroyed and damaged some of the valves in the station system so they could not be operated.

Reflection of the huge column of flames were seen for many miles. Police and state highway patrolmen explained that the reflection of the flames from the clouds enabled persons to see a glow from more than 150 miles away.

Morton said he expected to have the station by-passed today.

"But when we'll get the station to pumping again we don't know," he added.

The pipeline is one of three running from the huge Hutton field in southwest Kansas, Oklahoma and Texas.

Later company employees said the loss would reach \$100,000.

## Large Sums Left To S. L. Hospitals

ST. LOUIS, Dec. 8.—(AP)—Barnes hospital of St. Louis and Vanderbilt University of Nashville, Tenn., each will receive \$100,000 from the estate of Frank C. Rand.

The board chairman of International Shoe company died last Friday at the age of 73. His will was filed for probate yesterday.

The bulk of the estate was left in trust for one son and 12 grandchildren. No estimate was available on the value of the estate.

### Injured in Safety

First Demonstration POPULAR BLUFF, Mo., Dec. 8.—(AP)—It wasn't part of the day's program, but Fred Cochran, 20-year-old Ozark border cooperative lineman, was pretty badly hurt yesterday while conducting a demonstration on safety first.

Cochran was showing other workmen how to remove an injured man from a light pole when it happened. One of his climbing spurs struck the other leg, inflicting a severe wound. He was still in a hospital today.

## Confirms Shipment To Russia

Spurring House Probers Learn Canada Sent Uranium in '43

By Douglas B. Cornell

WASHINGTON, Dec. 8.—(AP)—Canada confirmed today a 1,000-pound shipment of uranium materials to Russia in 1943, spurring House probers on their hunt for proof of other wartime atomic shipments they suspect the Soviets got.

Investigators for the House Un-American Activities committee think they may be able to show that the Russians got 1,000 grams of heavy water from the United States although Lt. Gen. Leslie B. Groves, who headed the wartime A-bomb project, says he doubts it.

They thing they have reason to believe also that around 500 reached the Reds around July of 1944.

By the committee's count, these would be shipments No. 4 and 5 if they can be pinned down.

Probably Same Shipment That calculation assumes that the 1,000-pound shipment reported to the Canadian House of Commons today is the same one that has figured in the committee's hearings.

Trade Minister C. D. Howe told the Canadian lawmakers that 500 pounds of black uranium oxide and 500 pounds of uranium nitrate were sold to the Russians in May, 1943, through normal trade channels.

Members of the Un-American Activities committee emphasized that they intend to pursue the question of what Russia did get in the way of atomic materials and know-how until they have exhausted every angle.

Groves said in Norwalk, Conn., today he hopes the committee will continue its digging. He was interviewed by telephone by an Associated Press reporter in New York.

Had Secret Information Groves also said he believes the Russians obtained secret information. He said: "How much they obtained, nobody knows."

Investigators are now doing spade-work for further hearings by the House committee in about 10 days.

Among other things, they are going into the question of just what former Lend-Lease officials William C. Moore and James P. Hoopes had to do with what they call atomic shipment No. 2 in the spring of 1943.

They want to know why Groves was reported to have approved the shipment although Groves says he did not.

The committee is exploring, too, an idea that the Soviets might have side-stepped the Lend-Lease Administration to get some atomic materials elsewhere.

### Calmed Down

But except for some checking on items like these by the committee staff, the latest atomic explosion on Capitol Hill apparently has just about subsided until Dec. 19.

Moore, Hoopes, and former Vice President Henry A. Wallace may be witnesses then.

Wallace will get a chance to deny under oath what Groves has already denied for him—that Wallace put on-pressure and overruled Groves to get atomic materials for the Soviets. Wallace has termed this "sheerest fabrication."

It was a radio commentator, Fulton Lewis, Jr., who said Wallace was the source of pressure.

Wallace telegraphed the committee that "I would like to meet my traducers face-to-face before your committee at the earliest possible moment."

Groves, now retired, told the committee yesterday that the late Harry L. Hopkins, White House adviser and Lend-Lease expediter, didn't apply pressure on him either.

Seven Killed By Gunfire MANILA, Dec. 8.—(AP)—Seven persons, including four children, were killed last night in a burst of gunfire that struck a bus near Lipa City in Batangas province. Responsibility for the shooting has not been fixed.

## Ex-Commies Big U.S. Ally in Battle of Words With Reds

By Peter Edson  
NEA Washington Correspondent

The 30-year war against Communism in the United States has been, in last analysis, a talking war. Words are the revolutionary's weapon of biggest calibre. Counter-propaganda is the fortress.

The Communists have used words more aggressively, more sensationally and with a louder bang than the anti-Communist. The direct assault has hardly been effective. But real damage has been done by the "echo press" — subsidized organs of front groups and well-meaning but innocent liberal publications, which pick up the line without recognizing it.

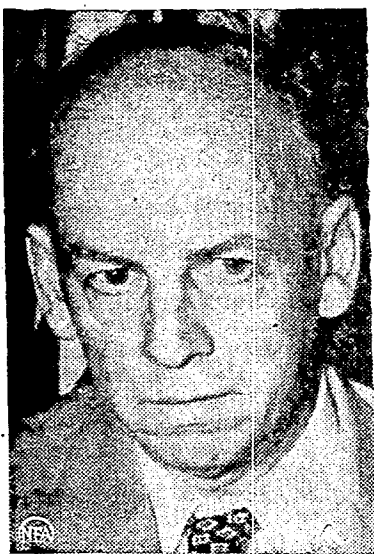

Jan Valtin  
Story from the night.

The Daily Worker, Sunday Worker and the party's deep-dish intellectual monthly — formerly "The Communist" and now called "Political Affairs" — have been able to garner circulations in the low thousands. They never have made any money and have had to be subsidized by Moscow or by American angels. A goodly percentage of their readership is anti-Communist; study the line, these subscribers know, and you will be better able to refute it.

The infiltration into Hollywood is well known because of the pending Supreme Court test case against two of the 10 writers charged with contempt of Congress. In the war years there was some penetration of radio, but shortly after V-J day both NBC and ABC took seven-league steps to get rid of the leftists on their writing staffs.

In the pamphlet and leaflet fields, no one knows how much stuff the party and its fronts have been able to produce. An attempt to collate this literature is going forward at the University of Michigan, whose Labadie collection of radical literature is

Louis F. Budenz  
Story of disillusionment.

heavy with Communist tracts. On the anti-Communist side, the counter-barrage has been formidable. In the first decade of the 30-year war, what U. S. writers produced was not impressive. It was a time of hysteria and much of the stuff was of the scare variety, so exaggerated and wild-eyed that its impact was virtually nil.

It was 10 long years before a few of the bolder spirits learned that you cannot fight a lie with another lie, and that cold fact, passionately uttered, is the most devastating of answers. This coincided with the discovery among many writing men, that the new Communist philosophy was as phony as Moscow's claim to inventive firsts. When it became clear that the Soviet was only interested in the proletariat as a surface thing and had as its major aim the expansion of its own imperialism, there was a rush into print.

The most trenchant pens were in the hands of ex-Commies. The result was several five-foot bookshelves of excellent "true confessions," ranging from Jan Valtin's "Out of the Night" to Louis F. Budenz' volume of disillusionment, "This is My Story."

Others who have pounded potent typewriters against Communism include Eugene Lyons, John Dewey, John Dos Passos, Max Eastman, Sidney Hook, James Rorty, James T. Farrell, William Henry Chamberlain, Charles Rumsford Walker, Lillian T. Symes, Evelyn Scott, Suzanne LaFollette, Isaac Don Levine, Ferdinand Lundberg, Harry Gideonse, Ludwig Lore, Benjamin Gitlow, Morris Ryskind, Edmund Wilson, Benjamin Stolberg, Gen. Walter Krivitsky, Victor Kravchenko, Jo-

movement anywhere in America. Lyle Wilson of United Press has done a magnificent job of exposing Communist political skulduggery.

Another highly noteworthy reporter is Benjamin Stolberg, who now works closely with the anti-Communist writers. Stolberg prepared a series "Inside the CIO" for the Scripps-Howard newspapers in 1938. The material was later published in book form. At the time the Communists had virtually taken over the CIO. Stolberg's series, while it was bitterly assailed by liberals, fellow travelers and the labor press, had a striking effect in the crystallization of public opinion.

Today, the CIO News, now edited by Allan Swim, does a nicely balanced job of crusading against Communists in the CIO ranks, whereas only a few years ago it often traveled along with some of the most radical.

## Beware Coughs Following Flu

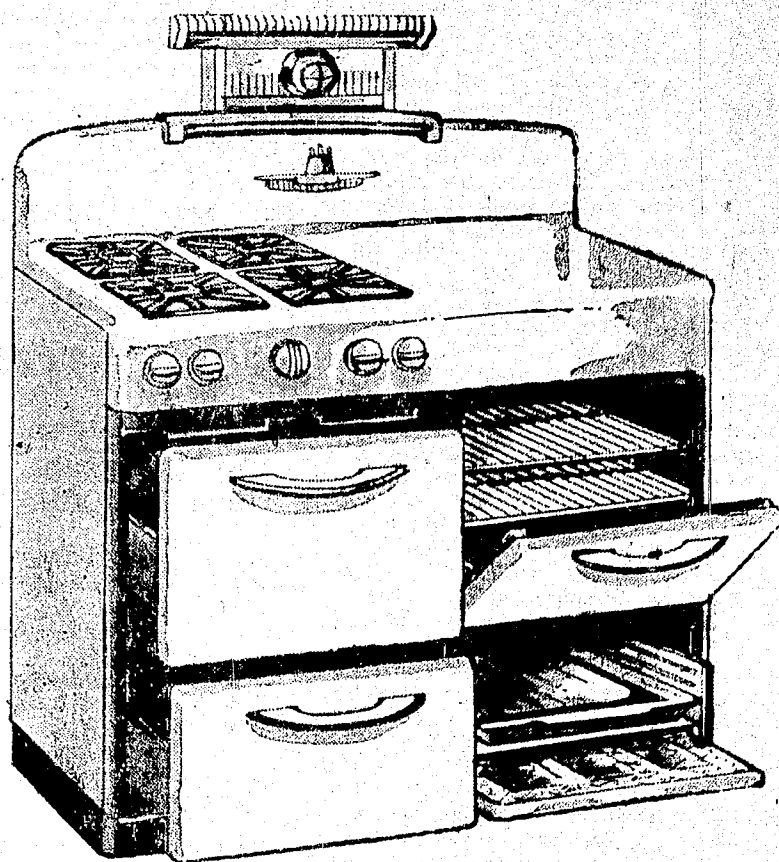

After the flu is over and gone, the cough that follows may develop into chronic bronchitis if neglected. Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and to aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

Mr. and Mrs. E. W. Henry, 1912 Nebraska avenue, Kansas City, Kas., former Sedalians, will hold open house on December 29, from 3:00 to 5:00 o'clock in the afternoon and 7:00 to 9:00 that night in observance of their 40th wedding anniversary.

On Wednesday, December 29, 1909 at 4:00 o'clock in the afternoon Miss Sara Payne was married to Edwin Woods Henry at the home of the bride in Sedalia. A reception followed.

Mrs. Henry is a member of the Mozart Music club in Kansas City, Kas., and the Organist Guild in Kansas City, Mo., and the Past Presidents Club, Kansas City, Mo. She played the organ at the First Presbyterian church in Kansas City, Kas., for 23 years and is now organist at the First Christian church, Kansas City, Mo., where she has been playing for four years.

Mr. Henry was a salesman for Loose-Wiles Biscuit company for 43 years, and is salesman for the Goodrich rubber company at present.

They have three daughters, Dorothy, who was married on the wedding anniversary of her parents, 11 years ago to Merle Steele, of Ford, Kas., Berenice, who resides in Albuquerque, N. M., and is secretary to Danfellers School of Music and Lois, who is in service. She is Lt. Lois V. Henry and is stationed at Fort Devens, Mass. She has charge of entertainment. Mr. and Mrs. Henry also have three grandchildren.

Dr. Nannie Dufur, former Sedalian, celebrated her 85th birthday anniversary at her home in Stigler, Okla., with a turkey dinner on Sunday, November 20.

Dr. Dufur was an osteopathic physician in Sedalia practicing at 121 East Broadway. She later built the home at the southwest corner of Sixth street and Harrison avenue. She is still alert and active in her church in civic affairs and in presidential elections.

Dr. Dufur received remembrances from a number of friends she had celebrated her birthday with 45 years ago, among them being Mrs. Ernest Gillespie of this city.

The Registered Nurse Club met in the nurses home at the Bothwell hospital, Tuesday evening to discuss by-laws of a proposed district under the Missouri Division of American Nurses Association.

The plans for the group are to form a district in Sedalia. The object of this association shall be to advance high standards of ethical and professional conduct among nurses, and to promote their educational advancements.

Marriage vows were exchanged between Miss Jean Daniel and

**AT ROYAL HUNT**—Queen Juliana of The Netherlands, and her daughter, Princess Beatrix, 11, watch Princess Irene, 10, ride in her first hunt at Spengenberg Castle, Haarle, East Holland.

Clay Parsons, at the Presbyterian church, Sweet Springs, at 10:00 o'clock on Thanksgiving Day before the altar decorated with baskets of white mums with the Reverend Lenox Crockett reading the double ring ceremony. Preceding the ceremony Miss Sarah Deaver of Springfield, Ark., cousin of the bride sang "Because" accompanied by Mrs. Lenox Crockett. The bride who was given in marriage by her father, wore a blue dress-maker suit with brown accessories. Her corsage was of five pink orchids.

The bride's only attendant was Miss Hazel Roscher, a former classmate. She wore a gray suit with a corsage of tiny gold mums.

The best man was Dallas Parker, of Grandview, brother-in-law of the bridegroom. The usher was J. D. Robins, of Kansas City.

Immediately after the ceremony a wedding breakfast was served to members of both families at the bride's home south of town with aunts of the bride, Mrs. Mary Deane and Mrs. Melvin Lane, assisting in serving. The dining table was decorated with a lace tablecloth and a three-tiered wedding cake. Mrs. Don Richardson, of Nelson, served coffee from a silver service at the table. After the wedding cake was cut, Mrs. Dallas Parker, of Grandview, served the cake and Mrs. Deane and Mrs. Lane served brick ice cream.

The bride is the daughter of Edgar A. Daniel of south of Sweet Springs. She is a graduate of the Sweet Springs high school and has been a student at Central Missouri State college.

The bridegroom is the son of Mr. and Mrs. Marshall Parsons of Sweet Springs. After graduating from the Sweet Springs high school he enlisted and served three years in the Marine Corps and is now attending the school of engineering, at Washington university, in St. Louis.

The couple left for their new home at 4342 Lindell Boulevard in St. Louis, where the bridegroom had an apartment in readiness for his bride.

The War Dads and Auxiliary and their families will have a turkey dinner at 6:30 o'clock Fri-

day night at the American Legion hall, 114½ East Fifth street.

Each person must have their own table service and members of the auxiliary will take a covered dish. At 8:00 o'clock there will be a Christmas party for the Gold Star children.

## Scouts Christmas Party Saturday

The Girl Scouts of Sedalia will be given their annual Christmas party Saturday morning at 10 o'clock at the Fox theatre.

Mrs. J. M. Bailey has arranged for the Brownie Scouts, under the direction of Mrs. Elmo Harlan, to sing carols to the group, after which a special holiday screen program will be shown. Senior Scouts will act as ushers for the party, and Santa Claus will make an appearance at the end of the movie program, to present favors.

Party arrangements have been under the supervision of Mrs. Philip M. McLaughlin, program chairman for the Sedalia Council of Girl Scouts.

## Rehearsal Tonight

Rehearsal of the Queen City Chorale will be held at 7:30 o'clock tonight at the First Christian church, Seventh street and Massachusetts avenue.

The Christmas Chorale program for the annual presentation December 15, will be assembled.

## Homemakers To Meet

The Osage Homemakers club will meet Friday, December 16th, at the home of Mrs. Frank Swope with an all day meeting. Each one is asked to bring a grab-bag gift costing \$1.00 and also a hostess gift.

## Chamber of Commerce Warns Against Fraudulent Schemes

The Better Business Bureau of the Sedalia Chamber of Commerce wishes to warn the public to watch out for fraudulent schemes.

With the advent of the Christmas season, merchants and other citizens of Sedalia must be specially on guard for the various schemes which make their annual appearance at this time of year. The gyp-artists and crooks will be on the alert to take advantage of the spirit of giving and it behooves merchants and consumers to be on guard. The following schemes are likely to be the most prevalent this year, states John F. Zander, secretary of the C. of C.

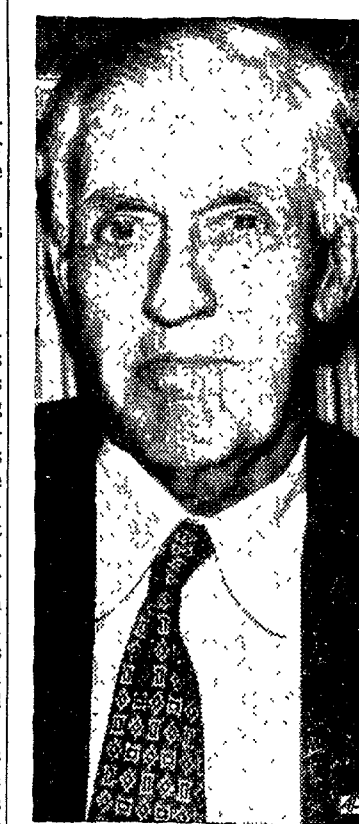

"1. Collection of C.O.D. charges from neighbors on gift packages filled with unordered goods, on the representation that the addressee is 'not at home now.'  
2. Solicitation of funds for Christmas baskets by high pressure promoters who pocket all or most of the funds collected.  
3. The solicitation of Christmas advertisements for questionable or non-existent publications.  
4. Collection of deposits for Christmas photographs by phony photographers who fail to deliver any pictures.  
5. The sale by sidewalk hawkers of gift merchandise which can be found at much lower prices at reputable stores.  
6. The shipment of unordered gift merchandise to retail stores in the hope that they will mistakenly accept and pay for it, during the Christmas rush.  
7. Mail appeals at Christmas time from unknown charitable organizations or individuals in distant cities in the form of a request for a donation for some merchandise enclosed with the appeal, such as handkerchiefs, pencils, neckties, etc.  
8. The passing of bad checks

on the purchase of gift merchandise particularly of an amount far in excess of the actual purchase price.  
"9. The mailing of punchcards designed to sell shoddy merchandise which cannot be sold through normal trade channels.  
"Again the Chamber of Commerce would like to urge business men, merchants and all citizens of Sedalia to insist upon seeing the Chamber of Commerce credential card before any business transaction or donation is made with an unknown person. Carry one of these cards does not mean that the product or promotion is endorsed by the Chamber of Commerce, but it does mean that an investigation has been made with the Better Business Bureau in the town from which the particular party comes, and it is termed legitimate.  
"If any unknown person comes to you for a donation or any type of transaction in which he asks for money and he does not carry the Sedalia Chamber of Commerce credential card, please cooperate by getting his description and name if possible and then phoning the Police Department or the Chamber of Commerce office to make the report. Through this program Sedalia citizens have been protected from hundreds of illegitimate schemers and it is the only sure method any citizen will have of knowing that the unknown person has a legitimate program.  
"Insist on seeing the Chamber of Commerce card which is issued for a period not to exceed one week or investigate before you invest."

# Retraction of Confession in Treason Trial

But Proceedings Are Not Running True to Form

By The Associated Press

Another former Bulgarian Communist leader pleaded guilty today to anti-state activities before a people's court in Sofia. But the trial is not running true to form.

Yesterday the former No. 2 Bulgarian Communist, Traicho Kostov, repudiated his earlier confession that he spied for British intelligence, worked for Premier Marshal Tito of Yugoslavia and betrayed the Communists.

The retraction of Kostov, a former deputy premier, reportedly shocked the court. It looked like the first time in history anyone had ever dared to change their admission into a denial in a Soviet satellite spy trial.

The Kostov repudiation was reported by Peter Burchett, correspondent of the London Daily Express and Tass, the official Russian news agency.

## Latest Guilty Plea

The latest guilty plea was uttered by Nikola Nachev, a former deputy construction minister. Altogether, 11 former leaders are on trial. All are charged with treason and spying. Former Finance Minister Ivan Stefanov yesterday pleaded guilty.

The trial is similar to one recently held in Hungary, another Soviet satellite nation. There the defendants were accused of plotting to overthrow Hungary's Red regime and put the nation under the domination of Tito. These treason trials are aimed at ridding eastern Communist countries of Titoism, the modern Communist heresy.

A Yugoslav regime spokesman said recently the trials are a Soviet attempt to build a case against the Tito government as a forerunner of aggression. The spokesman said the Bulgarian trials had been postponed for awhile because Kostov was not quite sure of his lines of confession for the trial about to be "staged."

## On Move Again

The itinerant Nationalist government of China is on the move again.

The Nationalists decided to flee the mainland of China and move to Taipei, Formosa. The island has been prepared by Generalissimo Chiang Kai-Shek as a bastion for a last ditch stand against the victorious Reds.

The decision was taken at an emergency session of the cabinet today. It means that the Nationalists have all but abandoned the vast territory of China proper, with its 457,000,000 population.

Acting President Li Tsung-Jen arrived in New York for treatment of a stomach and liver ailment at a New York hospital.

In Moscow, the Communist newspaper Pravda quipped that stomach and liver trouble is likely to become a fashionable disease among Chinese Nationalist leaders.

In Berlin, Otto Grotewohl, prime minister of the Soviet-sponsored east German government was stricken with a serious illness. West German sources said he has had a nervous breakdown.

## To Dismiss Bribery Case

MARYVILLE, Mo., Dec. 8.—(P)—Prosecutor Emmett Bartram said an affidavit will be presented today in circuit court at Oregon, Mo., asking dismissal of robbery charges against a nurse and two young men.

The complaining witness, J. Wheeler Campbell, 72, filed the affidavit yesterday, stating he was too ill to testify.

Campbell charged last February that the two men tried to extort \$500 from him for allegedly making improper advances to the nurse.

The men are Robert Stohr, 23, Pittsburgh, Pa., and Paul Hegarty, 27, Stanwood, Ia. The nurse is Hegarty's attractive blond wife, Earline, 21.

Hegarty is a student at Tarkio college. Stohr graduated from the college after the charge was filed.

Campbell said the incident occurred while Mrs. Hegarty was rooming at his house in Maryville and working in a nearby hospital.

At the preliminary hearing Sheriff Earl Anderson and Deputy George Beverlin testified they hid in Campbell's home and saw him give a \$500 check to Stohr and Hegarty "for settlement to Mrs. Hegarty."

The case was taken to Holt county on a change of venue. The defendants have been free under \$2,500 bond each.

# OBITUARIES

## Mrs. Luna Kate Hodges

Mrs. Luna Kate Hodges, 83 years old, died at the home of her daughter, Mrs. Edna Leffler, at the Terry Hotel at 8:25 o'clock Wednesday night. Mrs. Hodges had been in failing health for thirteen years and had been critically ill for the past two weeks.

She was born at Union in Monroe county, West Virginia, November 25, 1866, the daughter of the late James W. and Clementine Beemer Hanley. She came to Missouri with her parents when she was a young girl.

She was married at Butler, Mo., November 2, 1882 to Francis L. Hodges. They lived in Bates county for two years and then moved to Portland, Ore., where they lived until 1886 when they came to Sedalia to make their home. Mr. Hodges was a tower operator for the Missouri Pacific. He died in February 1935.

Mrs. Hodges was also preceded in death by one son who died in infancy.

Mrs. Hodges has made her home with her daughter, Mrs. Leffler since the death of her husband.

She was a member of the First Christian church and of the S. B. A. Lodge.

She is survived by her daughter, Mrs. Edna Leffler; one son, W. L. Hodges, Sedalia; one brother, C. L. Hanley, Sedalia; one sister, Mrs. Ada Williams, Ardmore, Okla.; her grandson, Lee Hanley Leffler, Long Beach, Calif.

Funeral services will be held at the Ewing funeral home at 2:00 o'clock Saturday afternoon.

Rev. David M. Bryan, pastor of the First Christian church, will officiate.

Interment will be in Hodges family lot in the Crown Hill cemetery.

The body is at the Ewing funeral home.

## Theodore A. Ratje Service

Funeral services for Theodore A. Ratje, 56 years old, who died unexpectedly early Wednesday morning at the home of his sister, Mrs. Mamie Carver, south of Smithton, will be held at the Lake Creek church Friday afternoon with the Rev. E. L. Rathert, to officiate.

Music will be in charge of the church choir.

Palbearers will be Lynn Ratje, Leonard Hemkin, Waldo Carver, Glenn Martin, Stanley Rages and Herbert Ratje.

Burial will be in the Lake Creek cemetery.

Mr. Ratje was born October 29, 1893, in Morgan county, the son of the late August and Katie Ratje, and spent most of his life in the Lake Creek community.

Surviving are two sisters, Mrs. Mamie Carver and Mrs. George Meyer, of Smithton, and one brother, Rev. William Ratje, of Buckner.

Mr. Ratje was a member of the Lake Creek Methodist church.

The body is at the Neumeier funeral home at Smithton where it will remain until the hour of the service.

## Mrs. Annie Yowell

Funeral services for Mrs. Annie Yowell, Huntsville, Mo., who died at her home, Wednesday, will be held at Huntsville Friday afternoon at 2:30 o'clock.

A grandson, Roy K. Yowell, Jr., of El Chaco, Calif., will fly from his home to attend the funeral service. Mrs. Yowell was the mother of the late Roy Yowell of Sedalia.

Surviving is a daughter, Mrs. Orson Heifner of Huntsville.

## Send Welcome To New Babies

ST. LOUIS, Dec. 8.—(P)—Grass roots campaign? This one goes a little deeper. And it comes from Republicans, often accused of never having a new idea.

Magistrate Thomas Gabbert and Recorder of Deeds Ruby Koelling are operating on the theory you can't make a good (political) impression on a person too early in life.

They're sending messages of welcome—with \$1 bills enclosed—to babies in the cradle, regardless of the political affiliation of the parents.

Gabbert is Republican committeeman for the 12th ward, Mrs. Koelling is Republican committeewoman for the 23rd ward.

Their scheme set them back \$160 last month.

"It's costing us a lot more than we thought it would, but the idea is working out wonderfully," the pair said.

Sometimes the good will gesture backfires, as it did in the case of one parent who assumed the senders were Democrats.

"Thanks a million," he wrote Gabbert. "From now on our whole family is going to vote the straight Democratic ticket."

## Civic Clubs Council To Meet Friday

The Sedalia Civic clubs council will meet at the Pine Room at the Bothwell hotel Friday noon. All members are to be present.

# Personals

## Mrs. Earl Kuhn, of Arrow Rock, and daughter, Mrs. Earl Brooks, of Marshall, were guests of Mrs. Kuhn's mother, Mrs. Bert Wells, of 1520 South Osage avenue Wednesday.

Mrs. M. D. Hale, route 5, Sedalia, left this morning for St. Louis.

Mrs. George F. Chambers, 720 South Massachusetts avenue, went to Jefferson City today to visit her aunt, Mrs. Ida Tiller. The condition of Mrs. Tiller, former Sedalian, who is ill at the home of her daughter, Mrs. Albert Arenson, remains unchanged.

Mrs. Thomas M. Mullaly, 801 West Seventh street, is in St. Louis for several days and will return home Friday.

Mr. and Mrs. E. R. Casteel, of Columbia, are spending the week with Rev. and Mrs. David Bryan, 919 South Ohio avenue. Mrs. Bryan is the daughter of Mr. and Mrs. Casteel.

Mrs. F. E. DeRoy, formerly of Sedalia, now of St. Louis, is here for a short visit with her parents, Mr. and Mrs. R. B. Vickery, 109 East Seventh street, and other relatives. Mrs. DeRoy was the former Miss Joan Steelman, who was recently married in St. Louis.

## K. C. Newspaper Editor Dies

KANSAS CITY, Dec. 8.—(P)—Robert W. Reed, 58, assistant managing editor of the Kansas City Star, died today after an illness of several months.

He had worked on the Star for 33 years.

Reed underwent a major operation September 28. He suffered from high blood pressure and a uremic condition.

He served in both World War I and World War II.

During the days leading up to World War II, he was the newspaper's military commentator, as well as news editor. Following the war he represented the Star on three tours of Europe, Japan and South Africa, to study post-war conditions.

Reed, who held a colonel's rank, served as president of the Missouri Department of the Reserve Officers Association for four years and was a member of the national council's executive committee.

Survivors include the widow and a son, Robert S. Reed, a reporter for the Goodland, Kas., Daily News.

## County Fairs Have Doubled

JEFFERSON CITY, Dec. 8.—(P)—Earl Langritt of Bethany was elected president of the Missouri Association of Fairs and Agricultural Exhibitions today, succeeding Adolph E. Kies of Jackson, Missouri.

Named vice presidents were Jack Atkinson of Fulton, Elmer Lind of Cape Girardeau, Fred P. Schell of Liberty, Nelson Siegrist of Neosho and Orel E. John of Huntsville.

Rollo E. Singleton of Jefferson City was re-elected secretary-treasurer of the organization in final convention sessions today.

The number of county fairs and exhibits in Missouri has more than doubled since 1945, Robert T. Thornburg, state commissioner of agriculture, told the association today.

Thornburg said progressive fairs can mean much to the advancement of Missouri agriculture.

When the state aid program to county fairs was started in 1945 there were 78 organizations receiving state financial support, Thornburg said. The average state aid to each fair was \$150.

In 1948, state aid averaging \$307 went to 171 fairs.

Thornburg said so far this fiscal year state support has gone to 116 fairs for an average of \$451. This includes all the larger fairs of the state.

## AMA Assesses Campaign Dues

WASHINGTON, Dec. 8.—(P)—The American Medical Association today voted \$25-a-year compulsory dues for its members.

The fund from the dues will finance the AMA's campaign against "socialized medicine" as well as provide financing for other AMA activities.

Dr. George Lull, general manager of the AMA, told reporters the assessment would probably apply to about 85 per cent of the organization's total membership of 142,000.

On that basis, it would provide annual funds of about \$3,000,000.

Lull said retired physicians and honorary and associate members of AMA's state medical societies probably would be exempt. Exemptions will be determined by the state societies themselves.

Officials said the AMA had never before had compulsory dues although its constitution permits them.

# Icy Chill in The Midwest

By The Associated Press

A cold wave from Canada threw an icy chill into parts of the midwest today. Little relief is likely until Friday or later.

The center of the frigid air mass was in North Dakota this morning. Minot reported 18 below zero. The center was expected to move near Des Moines, Iowa, by nightfall.

South central states also felt the chill. The outer edges of the cold air front dipped into Texas and Mississippi.

Snow flurries and general cloudiness extended eastward from the Great Lakes to Pennsylvania and New York.

Rain or snow moving up into the middlewest out of the southwest may arrive Friday, relieving the pinch of cold.

Low temperatures early Thursday included 15 above at Chicago, 32 at Louisville, 33 at Memphis, 10 at Milwaukee, 8 at Des Moines, 27 at Kansas City, 29 at Oklahoma City, 12 at Omaha, 25 at Amarillo, 40 at Vicksburg, 61 at New Orleans, and 60 at Tampa.

## Exhausting Benefit Rights

WASHINGTON, Dec. 8.—(P)—A rapid rise in the number of unemployed workers exhausting jobless benefits rights is causing growing concern among government officials.

Latest figures compiled by the labor department's bureau of employment security show about 500,000 persons ran out of their rights to further unemployment compensation payments during the July-September quarterly period.

These are persons who still didn't have jobs after running through all the unemployment insurance payments they are entitled to. The number of weeks varies from state to state.

Roy Shoemaker, owner and operator of the station, arrived on the scene a few minutes after the accident. He said his attendant told him it sounded at first as if a car had pumped the building on the south side, then he saw the truck pushing the pumps over.

Luckily no sparks occurred and set fire to anything.

## BIRTHS

## Two Day Kill of Deer Totals 650

JEFFERSON CITY, Dec. 8.—(P)—Missourians killed at least 650 legal buck deer on the first two days of the 1949 season, the conservation commission reported today.

The two-day kill indicated total bag for the five-day season might be higher than last year when 17,000 red-capped hunters killed 1,432 legal bucks. That figure does not count the whitetail bucks killed by farmers on their own land.

Down in Taney county, Bob Spriggs had a close call. He went out yesterday to check part of his land which was posted against hunting. A bullet ripped the back of his coat and raised a welt along his spine.

Spriggs shouted and the hunter was so upset over the accident he quit and went home.

The farmer refused either to prosecute or identify the man.

Conservation agents over most of the 25-county deer hunting area said it appeared many hunters are shooting at anything that moves.

Agents arrested three men for hunting after the 5 p. m. deadline. The agents said the men identified themselves only as three Springfield ministers.

In Ripley county, officers are checking further into the death Tuesday of a prosperous retired farmer, Tony Bacon, of Leora, Mo. Bacon bled to death near Doniphan, Mo., after a shotgun slug smashed into his chest while he was deer hunting with a rifle.

An inquest has been set for Monday.

## Think Weapon Is One Sought

EXCELSIOR SPRINGS, Mo., Dec. 8.—(P)—Police believe they have found here the weapon that was used to kill Mrs. Ingrid King, 38, whose body was found in Andrew county, Nov. 30.

Orville Slover, assistant chief of police, said he found a brown-stained hammer in a burned-out car here yesterday. Slover said he believed the stains were blood and that they would be analyzed by the state highway patrol laboratory.

Tommy Emsley King, 45, the dead woman's husband, is being held at Savannah, Mo., on a first degree murder charge.

King's sister, Mrs. Pearl Duncan, of Excelsior Springs, testified at a coroner's inquest that King drove his son's car here last month before the body was found.

Slover said he believed the car "was saturated with gasoline and set afire."

# Fashion Talk From Marusa

BEVERLY HILLS, Calif., Dec. 8.—(P)—Bare your bosom lady, but do it coyly.

That's fashion advice from Marusa, whose spring and summer collection for 1950 is bosom-accented, but more subtle than the daring plunging neckline of last season.

The dresses which have a deep center slash, also have exaggerated collars of high revers which may be pushed up around the throat or draped around the shoulders. In other words, you decide yourself whether to cover up or reveal, and how much.

Another demure bosom-baring device was illustrated with the deep square décolletage. As much of the chest is visible, but it doesn't have the seductive look of the vertical plunge.

## Runaway Truck Causes Damage

A "runaway" truck of the Sun-Ra Frozen Fruits, Inc., Kansas City, caused several hundred dollars in damage to pumps at the Shoemaker's Skelly Super Service Station, 1717 West Broadway, at 8:15 o'clock this morning. Damage to the truck was comparatively slight.

The driver of the truck had gone into the J and O Cafe, which adjoins the service station, and placed the truck in gear and pulled on the emergency brake.

In some manner the brake released and the gears failed to hold it and it slowly rolled down an incline into two gasoline pumps and two light standards on the west driveway of the station.

It first struck a light standard, then rolled and crashed into one pump, then the second pump and another light standard, shearing them off at the concrete base.

Roy Shoemaker, owner and operator of the station, arrived on the scene a few minutes after the accident. He said his attendant told him it sounded at first as if a car had pumped the building on the south side, then he saw the truck pushing the pumps over.

Luckily no sparks occurred and set fire to anything.

## Nominees For Scholarships

ST. LOUIS, Dec. 8.—(P)—Kenneth L. Rinehart, Jr., of Chillicothe and John W. Dickey of Springfield are the Missouri nominees for Rhodes scholarships.

They will compete with ten other nominees from five other states at Des Moines, Ia., for four possible scholarships to Oxford University in England. The competition will be conducted by a midwest regional selection committee.

Rinehart, a chemistry major at Yale University, and Dickey, a political science major at the University of Missouri, were selected from a field of 15 Missouri candidates. The selection committee was headed by Dean Elmer Ellis of the University of Missouri.

## Home From Oregon

Mrs. B. I. Bidstrup of Ottaville returned home Wednesday after visiting her daughter, Mrs. Paul Ruddell and Mr. Ruddell, and grandson, Robert Paul, of Portland, Ore. This was the first visit with her grandson. Mrs. Bidstrup also visited with Mr. and Mrs. Robert J. Bidstrup of Yakima, Wash., and said she enjoyed the trip through Oregon. She said the scenery was beautiful and snow was falling on the mountains when she traveled through that state.

LOOK WHO'S AT OUR WINDOW — Little Richard Hotchkiss got a thrilling "present" on his fifth birthday when he was able to see his parents, who are recovering from infantile paralysis at a Cleveland hospital, through a protective window pane. With his sister, Mary Ellen, 3, and his grandmother, Mrs. Myrtle Mulhern, he climbed to a balcony outside the hospital contagion ward and all three showed their happiness with brave gesturing. Inside, helpless on beds pushed together for the occasion, Bill Hotchkiss, 34, and Mercey Hotchkiss, the mother, manage to smile and wave at the visitors at the window.

### 'Bossy' Gillis Bounces Back

Andrew J. "Bossy" Gillis, 52, the "Bad Boy Mayor" of the depression years, grins following his victory after 11 defeats in a row for mayor of Newburyport, Mass. His once red hair now greying, Gillis said his first act as mayor "will be to tear the police department apart and then fire the fire chief."

### Kills Self After Slaying Girl

NEW YORK, Dec. 8—(P)—A hopeless 'teen-age romance, aimed at marriage, ended instead in death on a tenement roof Wednesday beneath a blanket of new-fallen snow.

A 14-year-old girl, Edna Renta, was found dead on the roof. Beside her was the body of her 19-year-old sweetheart, Rosa Avila.

Police said Avila shot the girl and then killed himself.

Avila, working as a laborer in a doll factory, saved \$1,000 to marry Edna. But she put him off, friends said, because she felt herself too young for marriage. After a year and a half he despaired.

In his pocket police found a note written in Spanish. It read: "Today I have finished all that I desire in this miserable life and have the greatest desire to take my life and the life of the one I love very much."

### Truck And Auto In A Collision

A 1937 Ford pick-up truck driven by Ernest R. Simmons of

402 South Babcock avenue and a 1939 Plymouth automobile driven by Sam Soloman of 1603 South Kentucky avenue were in a minor collision near the intersection of Osage avenue and Main street about 4:00 o'clock Wednesday afternoon.

No damage resulted to the truck while the left rear fender of the Plymouth was slight crushed, according to police records.

The drivers of both cars were brought to the police station where a settlement was reached.

### End Strike On Aluminum Plants

PITTSBURGH, Dec. 8—(P)—The strike of 17,000 CIO United Steelworkers against nine plants of the Aluminum Company of America ended Wednesday with agreement reached on wage adjustments, pensions and insurance.

The agreement which ended the 52-day long walkout provides for \$100 a month minimum pensions, like the pacts which ended the steel strike, and social insurance benefits.

The company bears all pension and insurance costs except that the worker continues his contributions to the federal social security program. The company

### Complaints On Coffee Trading

KANSAS CITY, Dec. 8—(P)—Secretary of Agriculture Brannan said Wednesday night the recent jump in coffee prices gave new evidence of need for legislation extending the government control over speculative trading in imported agricultural products.

He said his department had received complaints of "speculation and manipulation in coffee futures" trading.

At present, control is limited largely to trading in commodities grown in this country.

The Secretary recalled that President Truman early this year requested legislation bringing trading in coffee, sugar, cocoa, pepper, rubber, hides and wools under control, but congress took no action.

In a talk for a meeting of the consumers cooperative association, Brannan said the current upsurge in coffee prices makes such legislation of "wider public importance."

### Term Of 50 Years Is Given Rapist

KANSAS CITY, Dec. 8—(P)—A 28-year-old father was convicted by a circuit court jury here of raping a 48-year-old woman in her apartment and was given a 50-year sentence.

The jury returned the verdict against Harold L. Wilson after four hours of deliberation.

The assault occurred in the apartment of the married woman in May, 1948, while her husband was at work. Testimony brought out Wilson, married and the father of a child, was intoxicated at the time.

### Checkup For China's Acting President

NEW YORK, Dec. 8—(P)—China's acting president, Li Tsung-Jen, arrived by plane on Wednesday for a medical checkup. He said he hoped to return to China and continue a "fight against the Communist forces of aggression."

# Hainan Battens Down, Prepares for Communist Attack

With Communist troops mopping up the mainland of China, only two strongholds remain in the hands of Nationalist troops headed once again by Chiang Kai-shek. They are the islands of Formosa and Hainan.

Pictures from Hainan, above, were taken as last Nationalist armies in the south poured into adjacent Liuchow Peninsula, apparently concentrating there for evacuation to Hainan for a last-ditch stand.

The Sedalia Ministerial Alliance held its regular meeting with a noon luncheon, Monday, at the Service Building of the Broadway Presbyterian church. Thirty-six ministers and their wives enjoyed an impromptu program of music and fellowship arranged by the social committee members of which are Rev. George Acree and Rev. Warren L. Botkin. Capt. A. R. Rush, president of the Alliance, presided at the brief business meeting and introduced Ralph Carrel who spoke on the necessity of an increased number of donors to the blood bank in the Sedalia community.

## Ministers For CROP Program

A brief statement was made by Mr. Joseph Caldwell, state director of the Christian Rural Overseas program, concerning the collection and purchase of grains for overseas relief. The Alliance adopted the following resolution concerning the "CROP" program: "Be it resolved that the Christian Rural Overseas Program, gathering together soybeans, corn, wheat and milk in carload lots for the relief of the hungry and helpless in Europe and in Asia, is warmly endorsed and approved by the Sedalia Ministerial Alliance. "Each person giving through CROP, either cash or grain, whether a member of a church or not, may be assured that he may name the church to receive his contributions. "We highly commend the CROP plan and believe that it is entitled to the full support of all Christians."

A. R. Rush, President of the Alliance, W. C. Bessmer, Secretary. The CROP program has received endorsement nationally by Lutheran World Relief, Catholic Rural Life and Church World Service. The local chairman for CROP is Mr. Irwin Raut.

Illness Makes Cowboy ONECO, Fla.—(P)—Rheumatic fever made sports impossible for Burdette Parent, so he had substituted cattle-raising.

The 10-year-old fifth grade student had the illness when he was six, and it left him with a heart murmur which ruled out sports, although he still likes to watch them. He's also a Cub Scout working on his Bear Badge.

He has raised steers "cooperatively" with other members of his family before but now he is doing a solo with a 540-pound Aberdeen Angus steer, looking for laurels in 4-H Club work.

Clarke made his latest ascent with a friend. "When we rolled out of our sleeping bags," he said, "frost and ice were on the ground." He said one inexperienced hiker collapsed near him on the trail and had to be carried down. For 30 years an inspector of public works in Los Angeles, Clarke has been an enthusiastic alpinist for as long as he can remember. "In my younger days I would even quit a good job to go off into the mountains," he said.

His only complaint about his last jaunt was the heavy traffic on the trail and the discourtesy of some climbers, whom he compared to Sunday drivers. "I was knocked down several times," he said, "and I don't get up so quickly as I used to."

## 78-Year-Old Still Mountain Climber

LOS ANGELES—(P)—Thomas E. Clarke, 78, has climbed Mt. Whitney for the 13th time. What's more, the 6-foot, 160-pound Hemet, Calif., man scrambled to the top of the nation's highest peak, 14,496 feet, only five and a half hours after leaving the 10,000 foot level.

Clarke made his latest ascent with a friend. "When we rolled out of our sleeping bags," he said, "frost and ice were on the ground." He said one inexperienced hiker collapsed near him on the trail and had to be carried down. For 30 years an inspector of public works in Los Angeles, Clarke has been an enthusiastic alpinist for as long as he can remember. ## They Shed New Light On Old Pump

By BERT GOLDRATH  
NEA Staff Correspondent

ESTHERVILLE, Ia. — (NEA) — The next time somebody builds a better mousetrap, Bill and Peg Schloeman undoubtedly will make a lamp out of it.

Everything that gets into their crowded garage-workshop ends up that way—wired for electricity and capped with a shade—whether it's a coffee mill, an old cistern pump, a washbowl, or a teapot.

PEG SCHLOEMAN: With a shade, the teapot pours light.

Mrs. Schloeman suddenly began getting what she calls "some wild ideas" about lamps when her husband converted their Estherville garage into a hobby shop two years ago. Then she talked her husband, a cabinetmaker by trade, into making the wild ideas work.

"Our idea," she says, "is to show people what can be done with some of these odd antiques or 'junk' they have, and perhaps to let them bring their own ideas here for us to work out."

This results, for instance, in lamps Bill Schloeman has fashioned out of a six-drawer spice cabinet or an old wallpaper printing cylinder. Peg Schloeman follows through in the lampshade department, using mostly textiles for her effects.

Probably the most startling item in the Schloeman collection

"BRIDE OF LIGHT"—Norma Freeman, 20-year-old Chicago fashion designer, was crowned America's "Lucia Bride," or "Bride of Light," at ceremonies in Chicago. She will fly to Stockholm for the ancient Swedish ritual marking the beginning of the Christmas season.

## Benton County Proposed Road

A preliminary investigation has been made by the State Highway Department on the supplementary state highway designated Route W.

Route W is described in the Supplementary Highway System as, "Beginning on Route 52 near the Morgan County line, thence in a southerly and westerly direction for approximately two miles."

The line that has been selected by the Chief Engineer for the location of Route W and will be presented to the State Highway Commission for approval, is described as follows:

Route W—Beginning on Route 52 in Section 1, T42N, R20W at or near intersection with county road to the south, thence in a southerly direction along or near present road through Sections 1, 12 and into Section 13, T42N, R20W to or near a point where a county road leads off to the west, thence on a curve to the west to

is a living room lamp made from what was, a long time ago, a simple iron cistern pump. A bowl of growing vines spreads out from the base, and the spout forms a compartment for cigarettes.

Since Mrs. Schloeman's "wild ideas" have pretty well filled the workshop, she and her husband are not adverse to selling their creations to people with similar wild ideas. They are not, it appears, hiding their lights under a bushel.

First Home Game For Tigers Friday

Bengals Will Meet The Jeff City Jays At Smith-Cotton

The Smith-Cotton Tiger cagers have been put through a rigid week of practice in preparation for their first home cage tilt of the year, when they meet the Jefferson City Jays Friday night at the high school.

Deer Tags Issued In Pettis County

Several Pettis countians were among sixty-five deer hunters who purchased deer permits at the county clerk's office for the 1949 deer season, which opened December 6 and continues through December 10.

Hunters are requested to fill out a card attached to the tag, supplying information to be furnished the Conservation Commission, such as what county the hunter hunted in, whether or no he killed a deer; date killed, and if a deer was killed, what type firearm was used, not later than 48 hours at the close of deer season.

Football Stars Are Waiting For Good Offer

Leon Hart and Doak Walker May Play Professionally

NEW YORK, Dec. 8.—(AP)—Two of the year's outstanding college football stars, Leon Hart of Notre Dame and Doak Walker of Southern Methodist, may wind up as professional teammates next year at Detroit — but the Lions will have to say it with dollars.

Hart, the most widely acclaimed lineman to come out of college since Larry Kelley of Yale 13 years ago, indicated yesterday he might be hard to persuade unless the bid is a fat one.

Asked About a Figure The six-foot-four, 260-pound flankman, who is fast enough to play fullback, was asked what sort of a figure would interest him.

"You might say \$25,000 a year as a starter," he replied. Then he winked, leaving you to decide whether he was serious.

Bo McMillin, coach of the National League Lions, was in town, too, last night to speak at the Heisman football memorial award dinner honoring Hart as the outstanding football player of the year.

Pep Assembly Friday For S-C Basketball

The first pep assembly of the season for the Smith-Cotton Tigers basketball team will be held Friday at which time, a film on the official rules will be shown.

The film will deal with basketball rule interpretation and all officials or other interested fans are invited to attend. The film is 20 minutes in length and the assembly will begin at 11:00 o'clock that morning.

The Tigers will need a victory Friday to get off on the winning side in conference play this season. The Tigers who started in the conference tournament were: Bill Holst, Bill Brown, Marvin Lankenau, Ralph Walker and Eddie Johnson.

Spring Grid Practice Abolished For Missouri

COLUMBIA, Mo., Dec. 8.—(AP)—Spring football practice is being abolished for Missouri high schools, but fall practice may start as early as August 15.

T. L. Noel, executive secretary of the Missouri State High School Activities Association, announced that ruling yesterday after a mail poll of the members.

Providing 15 days of practice have elapsed, the first football games can be played as early as the second Friday in September.

The association rejected a proposal to let baseball players compete outside the schools, but approved the same proposal for swimmers.

The association voted once more against taking jurisdiction over music activities.

Bonus Rule is Most Likely to Remain a Year

Minor Leagues Went Into Their Biggest Session Today

BALTIMORE, Dec. 8.—(AP)—As the minor leagues went into their biggest session of the convention today it appeared virtually certain that the bonus rule would be retained — at least for another year.

Sacred Heart Vs. Smithton In Cage Meet

Games Will Start At 7:30 p.m. Friday On Smithton Court

The Sacred Heart High Grem-lin's basketball and volleyball teams will meet Smithton Friday night on the latter's home court. It will mark the second meeting, this season, between the two schools. Sacred Heart beat Smithton by a 43 to 33 score, earlier in the season, on the roomy new Sacred Heart gym floor, but it is expected that Smithton will have a definite advantage on the smaller Smithton floor.

Team Members On the basis of his fine showing against Marshall Catholic team, last Friday evening, James Bus will probably see a good deal of service on the Grem-lin's first team in the near future. Other members of the first team making the Smithton trip include: Jerry Labus, Joseph Paxton, Joe Mehl, Jesse Martin, William Hodges and James Menefee.

Volleyball Game The Sacred Heart girls' volleyball team will open the evening with a volleyball game against the Smithton high team at 7:30 o'clock followed by a basketball game between the B squads. The A teams will play the final game of the evening. Going into the Smithton game, Sacred Heart's record for the season stands at five wins and two losses.

Coach Picks Score For Little Rose Bowl Game

PASADENA, Calif., Dec. 8.—(AP)—Coach Jimmy Karam of Little Rock, Ark., junior college not only picks his boys to trounce Santa Ana J. C. in Saturday's Little Rose Bowl game, but he also picks the score.

"We will win the game, 42 to 14," Karam stated today, flatly. Then, with an air of finality, he added:

"Santa Ana might score a couple of times. I don't think any J. C. team in Southern California can hold us to less than five touchdowns."

The coach, nicknamed "Haram-Scaram Karam" by those who have heard his exhortations, has more stiff workouts scheduled for his unbeaten team today.

Detroit Titans Won MV Conference Title

DETROIT, Dec. 8.—(AP)—The Missouri Valley conference is happy to have the University of Detroit its football champion for a change.

Detroit's Titans won the 1949 title in their first year in the conference.

Last night at a team banquet Art Eilers, conference commissioner, presented the trophy to Detroit.

With a grin Eilers remarked: "I am happy to see this trophy finally move. It had been held tight in the state of Oklahoma by the Aggies and Tulsa for the past eight years."

talent evenly." Salaries Paid The bonus rule makes a free agent who is paid more than \$6,000 by the majors, Triple A, or Double A; \$4,500 by a class A team; or \$3,000 by any other club a "bonus player" forever. That means that in most cases he cannot be farmed out once he's advanced to the parent club after his first year and is subject to unrestricted draft. Once waivers are asked on such a player, he must be given to the claiming club. The claiming club, however, has the privilege of sending him down once to the minors.

Sports Roundup

By Hugh Fullerton, Jr. NEW YORK, Dec. 8.—(AP)—Army's Earl Blaik argues that there isn't a good "T" formation team today that still uses the brush block. . . . When the Bears first popularized the revamped T, that was one of the big features and a lot of folks argued you couldn't run plays without holding by the linemen. . . . Come to think of it, have you noticed that the man-in-motion feature isn't used nearly as much as it was a few years ago? . . . Another Blaik contention is that one reason for the unpopularity of the platoon system is the word "platoon." . . . Says Earl: "A lot of people still don't like the army."

All in the Viewpoint When Ohio State's footballers were flying home from their early-season game with Southern California, the plane passed over the Grand Canyon. . . . One guy reported overhearing these comments: Guard Shag Thomas (an artist of sorts): "I'd give anything if I could get that splash of color down on canvas."

End Jim Palmer (a religious sort of a fellow): "It just shows the wonders of the work of our Lord."

Tackle Bill Miller (a farm boy): "Gosh, what a — of a place to lose a cow."

Shorts And Shells If the senior bowl folks are interested, Cliff Coggins, who set a new national pass-receiving record this season, graduates from Mississippi Southern this month and wouldn't mind cutting in on the take. . . . The Dodgers came out of the major and minor league draft sessions with a net profit of \$15,000 and five players.

And the Yankees' George Weiss admits he lost some sleep over Branch Rickey's draft "sleeper" until he learned it was not a certain bonus player in the Yankee system. . . . A sharp observer who watched the golf pros in the recent North and South Open picks as the best "comers" for the coming year, Dick Mayer and Gene Dahlbender, both of whom just recently turned pro, Jackie Burke and Charles Bassler.

Dots All, Brothers

Frank Thomas, Alabama's athletic director who hasn't visited his office since he suffered a heart attack last March, is showing improvement but there's no telling when he'll be able to work again. . . . If he can't resume his job, business manager Jeff Coleman, not Coach Red Drew, is the likely successor. . . . You can tab Texas Christian as a potentially dangerous team in the southwest basketball race. Four of the starting posts already have been taken over by members of last year's unbeaten freshman team. . . . Coach Don Faurot says Missouri's football season was "puzzling but interesting" — interesting to the fans and puzzling to Don, that is.

NEW YORK, Dec. 6.—(AP)—If the National Basketball Association hasn't done anything else for the game, it has, as prey Maurice Podoloff points out, provided a medium for experimenting with proposed rule changes. . . . For instance, they're widening the foul lane from six to 12 feet for a one-month experimental period — which is just picking up a change which the International Federation adopted for a four-year stretch. . . . If it doesn't work, Podoloff can pick up the phone and order a change within a few minutes. . . . "With 17 teams playing as many as 30 games a week, we can tell in a very short time whether there's anything wrong," Podoloff explains. . . . Ned Irish, picking up the explanation of the various NBA changes that will go into effect Dec. 15, says the whole idea is to keep teams from "trading fouls" in the closing minutes, by eliminating some of the incentive to foul and by telling the referees not to tout their whistles unless there's a real foul. Sounds good from here.

Sports Before Your Eyes Ohio State will be the first team to fly to the Rose Bowl. . . . And the worst gag is that the Buckeyes will get off to a clumpy start. . . . Former lightweight champion Sammy Angott, who's attempting a comeback, hopes to make a movie based on his career. Sammy akeyed yesterday by N. Y. commission doctors, takes on Tony Riccio in Newark next week. . . . Oregon State's State Gill puts in a plug for Gene Connolly as the lad who may lead Washington State to the northern division basketball title in the Pacific Coast conference. Then Slat's adds: "He also will be heard from when he goes into professional baseball, which I hope will be very soon."

A "neutral" who usually knows the pitch says that neither of the big pro football leagues has made a move toward getting together with the other—but that doesn't mean that they won't.

Quote, Unquote Harry Rabenhorst, Louisiana State basketball coach: "Kentucky is the No. 1 basketball team in the Southeastern conference. Don't anybody feel sorry for Adolph Rupp. We had a conference meeting the other day and Adolph was making concessions to all of us."

THE ICEMAN COMETH—Bud Poole, New York Rangers wing, makes a short stop and a spray of ice working out at Madison Square Garden.

CBC Team Defeated Houstonia

College Cagers Will Go to Clinton For Game Tonight

The Central Business college basketball team chalked up its second straight victory this season by downing the Houstonia cagers 52 to 39 on the latter's home court, Wednesday night. About half of the crowd at the game were Sedallians.

The college boys jumped to an early lead and held it all through the game. Coach Jack Alpert used all the players who made the journey, so the Sedallians could acquire the needed practice for Sunday's tilt with the strong Byram Harrington team of Kansas City.

The first quarter ended 9 to 5 with the CBC team out front. At the intermission period, the college team led by a 21 to 10 score. In the third period, Houstonia trailed by only four points, 30-34, but in the final quarter CBC pulled away to clinch the tilt.

Game Tonight Tonight CBC team will repeat another road engagement, traveling to Clinton, where they will meet the Clinton basketballers at 8:00 p. m.

Sunday will be the big basketball day in Sedalia, when the Central Business college cagers play host to the Byram-Harrington Motors, who are members of the Heart of America Cager League. The team is led by two fine ball handlers, Captain Bob Bacchus, a 18 year old forward, who is regarded as one of the best shots in Kansas City, and Clarence Darrah, a good shooter from the guard position.

Hank Bauer Hank Bauer of the New York Yankees started the season with the basketball team, but was stopped from playing by the Yankee management. However, it is anticipated the major leaguer will be present for the Sunday tilt.

To Sedalians

The December issue of Look magazine carried an article on "The Methodists," with a picture of the Linwood Methodist church in Kansas City. This church was chosen to represent Methodism in Central United States because of its fine progress in the past seven years made by the church.

Mrs. Olen J. Hoehns, 2941 Lockridge, Kansas City, who has been in Kansas City the past two years, wrote the Democrat-Capital that she thought the article would be of interest to many Sedalians as the assistant pastor at the church at the time the picture was taken for the magazine last summer was Dr. Quincy R. Wright, former pastor of the First Methodist church in Sedalia. Also there are a number of former Sedalians who are members of the church.

Mrs. Hoehns also stated that she still takes the Democrat and enjoys the news from Sedalia.

The December issue of Look magazine carried an article on "The Methodists," with a picture of the Linwood Methodist church in Kansas City. This church was chosen to represent Methodism in Central United States because of its fine progress in the past seven years made by the church.

Mrs. Olen J. Hoehns, 2941 Lockridge, Kansas City, who has been in Kansas City the past two years, wrote the Democrat-Capital that she thought the article would be of interest to many Sedalians as the assistant pastor at the church at the time the picture was taken for the magazine last summer was Dr. Quincy R. Wright, former pastor of the First Methodist church in Sedalia. Also there are a number of former Sedalians who are members of the church.

Mrs. Hoehns also stated that she still takes the Democrat and enjoys the news from Sedalia.

SMOOCHES FOR "MR. SMITH"—A Chester White hog named "light green Smith" was practically smothered with kisses from Hal White, left, and "Hot" Michels after taking second place in competition at the International Livestock Show in Chicago. "Mr. Smith's" real distinction is that he is a city slicker among hogs, having been raised within the city limits of Chicago.

It'll Take Over 9 Billion 'Card Passes' to Figure Insurance for 621,000 Smiths, etc.

By Douglas Larsen  
NEA Staff Correspondent  
WASHINGTON — In business terminology a "card pass" is one computation or one sorting performed on one card by one business machine. It will take 9,526,000,000 such card passes to figure out the dividends which veterans get next January on their GI insurance.

The payment of \$2.8 billion worth of dividends to 16,000,000 eligible veterans is the biggest and most staggering single book-keeping job of its kind in history. More than 3,200 specially-trained business machine operators and clerks are working night and day on the job in a group of temporary buildings in the shadow of the Lincoln Memorial.

To the great relief of the officials who have been planning this gigantic task for more than three years, the actual work is running smoothly and slightly ahead of schedule.

The very size of the job creates some complicated problems which have never before been tackled by business experts. Edward G. Joseph, a government insurance expert from St. Louis who is in

IN THE CARDS — These are GI insurance dividend applications, but only a few of them. The whole file is 3,000 yards long.

charge of the job, admits that even he has difficulty grasping all the details of all the computations performed by the machines.

Here are some facts and figures which give an inkling of the size of the operation:

The master alphabetical file of just one set of cards is a double row of standard filing cabinets more than 3,000 yards long. When the job is finished there will be several rows of the same length with cards arranged according to such things as serial number order.

Approximately 621,000 veterans

PULLING WIRES — A repairman works on one of the complicated machines used in the GI insurance dividend book-keeping job. This machine checks to see no cards are lost between stops.

named Smith will get refunds. There are 534,000 "Browns." The first four cards in the file are for veterans with the last name of "Aab." The last name in the file is "Zzoellar," of which there is only one. However, these figures apply only to the initial batch of 13,000,000 applications which have been received. Dividends for 5,000,000 to 10,000,000 policies have not been sought yet.

Since the job started a few weeks ago 750,000 basic changes have had to be made on the application cards because of such things as death and change of address. A "basic" change is one that affects the size of the final dividend and to whom and where it is to be sent.

Never before has there been collected together as many individual machine units to do a single job — more than 1500. They are being rented from the International Business Machines Corp. IBM has to keep 50 repairmen on the job day and night to keep the machines working.

Hundreds of different major machine operations are required on each dividend application card. Seven huge machines, each capable of 2500 computations per minute, are kept going constantly just checking each operation to make sure that no cards are lost after each step.

When the time comes for the actual printing of the dividend checks the process will be so fast it will be impossible to select the "first" one printed. Actually about 7,000 "firsts" will be printed almost simultaneously.

Here are some of the special headaches on the job:

Popular Artists On Program

Featured in the second concert of the Sedalia Symphony Orchestra will be three guest artists of national fame. They are: Roma Ball, flutist, Muretta Meyer Henderson, harpist and Eula Schock, cellist.

Miss Eula Schock, cellist was born in Lewis, Del., and was a student of the piano before choosing the cello. Her second choice was governed by the need of a cellist for the Junior High school orchestra.

She attended the New School of Music for two years as a scholarship student. While there she studied with Orlando Cole and Max Aronoff. She later won a scholarship to Juilliard Graduate School of Music in New York where she was a pupil of Felix Salmond and Hans Letz. She graduated from Juilliard in 1948.

Miss Schock has been an instructor at Stephens college in Columbia for the past two years and is principal cellist with the Burrall orchestra.

Miss Roma Ball flutist was born in Dallas, Tex. She attended the Lander School of Creative Music at four years of age. There she studied piano, harp, theory and dancing.

Being musically inclined Miss Ball had learned to write music before she mastered the alphabet, and had been considered a prodigy on the harp before she began with the flute.

She dropped the harp after entering high school, but later entered Juilliard with a scholarship. She played flute with one of the nation's major training orchestras for one year, the National Orchestra Association.

Miss Ball played solo flute for three years with Phil Spitalny's orchestra, and has played under Leopold Stokowski in a performance of St. Matthew's Passion at the Metropolitan Opera house.

She gave a debut recital in Philadelphia under the auspices of the Music Fund Society.

Miss Ball has taught for four years at Manhattan School of Music before she came to Stephens College where she is now a music instructor.

The concert will be held Sunday afternoon at 3:30 in the Smith-Cotton auditorium, with Abe Rosenthal conducting.

(Friday there will be a short sketch on Muretta Meyer Henderson, harpist.)

SAND'S FANTASTIC—What would you do if a windstorm blew so much sand on your front lawn that the grass wouldn't grow? Home-owner Nate Barkman of Bay City, Mich., had that problem. He solved it by borrowing a vacuum cleaner, sweeping the sand up and returning it to Lake Huron, where it belonged.

Around Globe Under Five Days

NEW YORK, Dec. 8.—(P)—The man who shot down Admiral Yamamoto set a new round-the-world speed record by scheduled commercial airline flights — on the anniversary of Pearl Harbor.

Tom Lanphier, Jr., now a Washington, D. C., executive, touched down at LaGuardia Field after circling the globe in 13 minutes less than five days as passenger on five aircraft of three airlines.

His time, four days, 23 hours and 47 minutes, was exactly three minutes less than he estimated when he took off last Friday. The former record was six days, three hours and 40 minutes.

A fighter pilot during World War II, Lanphier is credited with shooting down Adm. Isoroku Yamamoto, then Japanese fleet commander.

Lanphier made his flight for the Air Force Association to mark the 46th anniversary of the Wright brothers' first heavier-than-air flight.

Youth Chorale Hears Choir

Sedalia's Youth Chorale traveled to Kansas City Monday, December 5, to attend a presentation of the world famous Vienna Choir Boys who appeared in the Music Hall there. The boys attended with their leader, D. E. Johnson, who comes to Sedalia, from Kansas City each Thursday to rehearse with them.

At this time, the Youth Chorale is singing light spiritual and popular music each Thursday night at the court house, 7:00 p. m. with Dr. Johnson as their conductor. The Youth Chorale is a subdivision of the Queen City Chorale which sponsors their activities.

Final plans were made for the Christmas bazaar which was held in the church basement Saturday. Assisting hostesses were Mrs. S. E. Routon and Mrs. Clarence Williams.

## Tyrolean Singers Inspire Young Holiday Fashions

The Adaptations — The festive holiday party outfit at left consists of a black velvet vestee, a black taffeta dirndl skirt and a voluminous apron of satin brocade. At right the same skirt is worn with a short-sleeved peasant-style blouse of white crepe, with jewel buttons. Both designed by Lorraine Budny.

By Dorothy Roe  
Associated Press Fashion Editor

Seven singing sisters of the Austrian Tyrol provide inspiration for a gay new group of holiday separates that will brighten up the Yuletide scene in many an American home this Christmas.

Designed for "mix-match" wear this group of junior fashions consists of three skirts, two blouses, two vestees and two novel aprons which may be combined in an almost endless variety of ways. The designer, Lorraine Budny, took her idea from the quaint costumes worn by the singing family whose exploits have just been recorded by their mother, Maria Augusta Trapp, in a book, "The story of the Trapp Family Singers."

The picturesque dirndls and vestees worn by the Trapp family both on and off stage have been translated into contemporary styles youthful and gay enough for the whole round of junior holiday parties.

The three skirts in the current group are of black taffeta, black velvet and brown wool jersey, each with matching or contrasting vestees. Worn without a blouse, the vestee top combines with a skirt for a fetching dance dress. With the addition of one of the colorful dirndl-type aprons, the costume can be completely transformed.

The former Baroness von Trapp and her singing daughters have appeared in more than 1,000 concerts throughout the United States and Canada during the last ten years. Though they cling to their colorful native dress, they now live in a huge Tyrolean-style farmhouse in Vermont, built by their own hands.

The popularity of separates for teen-agers, juniors and career girls is even greater than ever this year. Girls who must keep a sharp rein on their budgets have discovered that it's possible to assemble a smart and versatile wardrobe by investing in a few assorted skirts and tops, and scrambling them according to the occasion.

For both day and evening wear the skirt of black taffeta, velvet

or faille is a standby in the junior wardrobe. With a bare top it can be as formal as you please. With a demure high-necked blouse, it doubles for daytime purposes.

Again, the well-cut skirt of worsted or flannel forms the basis for a dozen office or class-

room outfits, with the judicious switching of sweaters, blouses, vests and jackets.

The Tyrolean idea of adding the apron makes just one more item in the mix-match lineup — and it looks as if the younger set will adopt the new addition with glee.

"Tough Guy" is Driving Menace  
LOS ANGELES—(AP)—Courtesy, says J. E. Hamm, Los Angeles county safety engineer, is 90 per cent of successful driving. And at the bottom of most discourteous acts, he adds is a complex. In all red-blooded men a "tough guy" lurks," opines Hamm. "This fellow is a private, personal hero of the man who carries him around. This 'tough guy' is fearless, boisterous, overbearing, dominant and obnoxious.

"What does the boorish driver do at a stop sign? He darts avidly forward after halting, feeling that because he has stopped, all others must wait until he crosses. 'If you give in, you're a sissy,' his alter ego yells. A gentleman waits until he can cross without inconveniencing anyone, whether they are right or wrong."

In a traffic jam to motorist's natural inclination is to yield a point, even though he may be legally right, Hamm says. Until that is, the "tough guy" cries "Show them you're the boss!" Drivers would do better, Hamm says, to read Emily Post as well as traffic rules of the road.

## "NO MORE SLEEPLESS NIGHTS"

"I feel so much better since I no longer have to dread those awful sleepless nights! My 'insomnia' turned out to be due to caffeine in the coffee I drank. So I switched to POSTUM and now I get 8 hours of restful sleep every night."

Are sleepless nights, due to "coffee nerves", interfering with your good health? ... Do you wake up in the morning, feeling tired and lousy? ... Then, try a switch to 100% caffeine-free POSTUM. See if you don't enjoy good, natural sleep that makes you feel better and enjoy life more.

SCIENTIFIC FACTS: Both coffee and tea contain caffeine. And caffeine is a drug that acts upon the brain and central nervous system. Also — in susceptible persons — caffeine tends to produce harmful stomach acidity. So, while many people can drink coffee or tea without ill-effect, others suffer nervousness, indigestion, sleeplessness. But POSTUM contains no caffeine or other drug — nothing that can possibly keep you awake!

MAKE THIS TEST: Give up coffee — give up tea — drink POSTUM exclusively for 30 days — and judge by results! Ask your grocer today for INSTANT POSTUM — A Vigorous Drink made from Healthful Wheat and Bran — 100% caffeine-free! POSTUM is a Product of General Foods.

Junketing Senators Create  
Bad Impression

By Drew Pearson

WASHINGTON, Dec. 8 — When Sen. Elmer Thomas of Oklahoma wrote a letter to Secretary of Defense Louis Johnson last fall wanting a special Air Force plane to carry a Senate appropriations subcommittee through Europe, someone in Johnson's office at first questioned the expenditure.

This caused the Senator from Oklahoma to challenge the use of government airplanes by Secretary Johnson, Vice President Barkley and other Brass Hats, with the result that Johnson pulled in his horns, and Senator Thomas got the plane — plus six crew members.

Now that Senator Thomas and colleagues have toured Europe — supposedly on official business — it appears that Secretary Johnson's first impulse was right. He should have stuck to his guns.

For the chief results of the Thomas junket are an overdose of hospitality in Spain, an underdose of hospitality in Sweden — thereby bringing bitter complaints from Senator Thomas — and the general impression left upon Europe that U. S. senators are ignoramuses.

To illustrate why Europeans got this impression, here is an interview published by the highly reliable Paris edition of the New York Herald Tribune:

"We saw the French defense minister today," Senator Thomas told the press, to illustrate the fact that his committee was in Europe to see how the American taxpayers' money was being spent. "He showed us the rooms Napoleon's mother lived in. Think of that! Man's name was Bidault or something. You can find out who he is — tall, slim fellow."

In other words, the chairman of the Senate committee did not know the name of the French defense minister, who is not Georges Bidault, but Rene Pleven. M. Bidault is the premier.

Paris Night Clubs—"Good!"

Thomas went on to tell the press about the Paris night clubs and theatres his committee had visited and named with approval the Lido, Bal Tabarin and Folies Bergere. "Good shows," he commented.

"I'm chairman of the committee," he explained when newsmen admired his suite at the Ritz. "I always get the best rooms."

Thomas went on to say that his committee liked Paris. "We've gotten all our Christmas shopping done," he explained.

Contrast 1 — Unlike the senators who toured Europe at government expense, Sen. Hubert Humphrey of Minnesota and wife took off for Europe by slow boat last month, paying their own way. "When my father-in-law died," he explained to a friend, "he left Mrs. Humphrey a \$500 bond. He said I had never had time to travel — that I worked too hard. And he wanted us to take a honeymoon. So we're using this bond to help pay our expenses. It's the first time I have been to Europe."

Contrast 2 — Unlike certain bibulous senators who guzzled Franco's wine in Spain and then recommended that he get a \$100,000,000 loan, Senators Brewster of Maine and Ferguson of Michigan took a quiet, hard working tour of the world's trouble-spots — completely sober.

**Bolivia Ducks**  
Bolivia is ducking all responsibility for the tragic P-36 collision that cost 55 lives over the Washington airport.

The Bolivian government now refuses to pay the balance of \$7,500 due on the plane, though before the crash it had insured the P-38 with Lloyds of London.

Bolivia has even stopped \$10,000 payment on another plane, a P-47, even though it was already delivered in La Paz. Yet the dealer here, Paul Aubin, can't sue Bolivia unless it waives diplomatic immunity. Furthermore, the relatives of passengers killed in the Bolivian crash cannot sue — without the Bolivian government's consent.

**Help For Franco?**

The American charge d'affaires in Madrid, Paul Culbertson, has cabled the state department that crop conditions are extremely bad and a Spanish revolution may start anytime. Culbertson reports that the only way to prevent the overthrow of Franco is an American loan. Therefore, with Vice President Barkley's son-in-law, Max Truitt, on Dictator Franco's payroll, a new drive for a loan to Spain is certain. Barkley, incidentally, usually disagrees with the policies of his son-in-law; never helps him.

**Merry-Go-Round**

The battle of the admirals isn't over yet. Admiral Blandy, commander-in-chief of the Pacific and Atlantic fleets, fired another round last week while at the New York Yacht club. He told a Navy audience that they must keep up the fight not only in writings and speeches, but in everyday conversation. . . . The new FHA policy against racial discrimination isn't worth much. It won't stop landowners from enforcing racial restrictions — as long as they don't put it in writing. . . . Secretary of State Acheson may deny it, but he has authorized George Kennan to begin drafting a new international control plan for atomic energy in the light of Russia's successful atomic bomb explosion. The new plan probably won't be accepted

ed by the Russians, but it will face the fact that they now have the bomb. . . . General MacArthur has recommended that the 27 American lend-lease frigates which Russia has finally returned to us now be given to the Japanese. MacArthur feels it is time to rebuild the Japanese navy as a bulwark against Communism in the Far East.

**Capital News Capsules**

GOP Stirs in Dixie—GOP leaders in Georgia will shortly hold a strategy meeting to decide whether to try reviving the Republican party in the south. Georgia has the leadership to spearhead such a movement, but needs money to hire paid organizers. Meanwhile, the Republicans are keeping on close terms with such southern Democrats as Congressman Jim Davis of Stone Mountain, Ga., whose voting record is 97 per cent Republican — even more so than Senator Taft's.

Russian Industry Hums — The American embassy has warned the state department that, contrary to predictions, Russian industry is breaking all production records, especially in tanks, planes and war materials. Ambassador Kirk says the Russian factories are turning out so much stuff that Moscow is planning to announce that the five-year plan has been achieved in four years.

Germany Grows Stronger as  
U. S. Races Reds For Favor

By Bruce Blossat

Grave risks attend the mounting competition for Germany between the western powers and the Soviet Union. Although still divided into eastern and western zones, Germany today is stronger than it would have been without such spirited rivalry. Tomorrow it may be far stronger if the East-West tug-of-war goes on.

There is bitter irony in this situation. The Allied nations felt they had been too soft on Germany after World War I. They believed their postwar course had actually spurred the rise of Nazism and opened the way to another war. And they were determined it should not happen again.

The decisions taken at Yalta and Potsdam by the Allied leaders were designed to create a postwar Germany that would be robbed forever of its war-making power. In those days there was even serious talk of reducing Germany to an agricultural nation.

What the West did not expect was Russia's unco-operative policy in Germany. This attitude quickly wrecked all hopes for smooth progress toward a peace treaty and threw East and West into a strenuous struggle for the people, the industry and the land of Germany.

Naturally this contest sharpened rather than lessened the division of its territory into two opposing camps. Each contestant made concessions to Germans under its control, not only to keep them in hand but to woo Germans from the other side.

Frm such competition arose the West German Republic govern from Bonn and the East German Republic based in Berlin. When the Russians set up their German state, they granted certain privileges they felt sure would also be attractive to Germans in the West.

Sure enough, the leaders of the Bon republic promptly appealed for new concessions to offset those granted in the eastern section. Just a few days ago the West acceded to some of these demands and laid the groundwork for a considerably more powerful postwar Germany.

The western countries agreed to stop dismantling 23 factories making steel, oil and synthetic rubber. One plant in this list accounted for 10 per cent of Germany's prewar steel-making capacity. Restrictions of German merchant shipbuilding were relaxed. The Bonn government will be allowed to have trade representatives overseas.

Western Germany did, of course, make certain promises in return. It acknowledged international control of the rich Ruhr industrial district. Existing limits on steel output—as contrasted with capacity—remain.

To re-inforce these promises, Secretary of Defense Johnson has declared that the West has no intention of fostering a revived German army under western authority.

The idea of such a force, the idea of all these concessions it to develop Western Germany as a strong contributor to the security of the free world against the Russian Communist threat. The theory is fine—but the dangers cannot be overlooked.

The stronger Western Germany gets, the bigger prize it becomes in any bidding for its allegiance. Thus the more likely are further concessions to keep the strengthened land within the western nation's policy.

The West is admittedly trapped in a difficult situation by Russia's rivalry. But that cannot minimize the fact that day by day we are yielding more and more strength to a Germany we said a few years ago should never again be powerful enough to wage war.

Turning The Tables

There are some ingenious fellows, steering policy for our propaganda broadcaster, the Voice of America. Not many months ago they put U. S. jazz to work to lure foreign listeners. Now they've taken another clever step. They have put Russian Foreign Minister Vishinsky to work—on transcription—showing the discrepancies between what he says in the United Nations and what the Moscow papers say he says. Needless to point out, Vishinsky is an unwilling helper.

• So They Say

We cannot afford to be purely national or even continental in outlook. The world has become so small for that. . . . If we do not co-operate, we stumble on one another and clutch at each other's throats.—Prime Minister Nehru of India.

It (Communism) believes that man is weak and unable to govern himself and so must be controlled by strong masters—that is the police state, which employs some of the most ruthless methods of control this world has ever known.—John E. Paufrifol, deputy undersecretary of state.

Fun And Friendship Erase  
Dullness From Homemaking

Does the job of homemaking have to be as lonely and monotonous a job as many women make it?

That question comes naturally from the numerous complaints I get from women who think their husbands lead interesting lives but that their own are unbearably dull.

I can't help but think women could do a lot to liven up the job of homemaking—if they used more imagination and less self-pity.

In the first place, women don't make the most of friendship with other women. Too often they regard their friends and neighbors as rivals, looking on them as other passengers in the same boat, tied down by the same demands and worrying over the same problems.

If women were quicker to lend each other a helping hand and a little encouragement and praise there would be far less loneliness in the job of homemaking than there is.

**Make the Job Easier**  
In the second place, housewives tend to make a lot of unnecessary

work for themselves. If they are slaves to their job, it is often because they strive to live beyond the manner in which they could manage easily. Too often they think in terms of making a good impression, instead of basing their wants on comfort and convenience.

And last of all, many women won't slow down enough to enjoy the little opportunities for pleasure that each day could offer.

They wish they had time to do things, instead of taking time to do them. Even the busiest housewife can snatch time from her day to ask a neighbor over for a cup of coffee, to get out in the sunshine and go for a walk with the children, to read a few minutes, to ask a friend to bring her sewing or mending over so that there is some companionship in an otherwise dull job.

Housekeeping needn't be as dull a job as many women make it. And one day doesn't have to be just like another for the homemaker, if she makes up her mind to vary them a little.

The Doctor Says—

Skinny People Must Eat More  
And do Less to Gain Weight

BY EDWIN P. JORDAN, M. D.  
Written for NEA Service

Most skinny people say that no matter what they eat they cannot gain weight. Even when this statement seems true, and they seem to eat as much as others who have a more normal amount of fat on their bodies, they can usually gain if they work at it.

Food is something like coal: the food is the fuel for the human body. Unlike coal, however, if more is taken in than is burned up, it will be transformed and stored as fat. The answer to the question of gaining weight, therefore, is to take more food in than is used for the burning-up activities of the body in the form of exercise and other bodily functions.

**Need More Calories**

Foods can be chosen which have a comparatively high calorie or fuel content. Fats or carbohydrates supply more energy and therefore have more likelihood of putting on fat than proteins do. Besides choosing the foods for their weight and energy-producing qualities, it is comparatively simple just to eat more.

High calorie-containing foods include the sweets, potatoes, bread and butter, cereals, butter or margarine, cream and the like. Whole milk is also helpful. In trying to eat more fat-producing foods the other necessary elements of the diet should not be left out. One must obtain balance in the diet and some fruits, meats, vegetables, eggs, fish, and other substances which are not high in fat-producing calories should be continued to maintain good health.

It cannot be emphasized too often that a balanced diet must be kept up. Almost anyone who does not have some serious disease can gain weight by following the plan of decreasing activity and increasing the foods eaten.

Note: Dr. Jordan is unable to answer individual questions from readers. However, each day he will answer one of the

most frequently asked questions in his column.

**THE DOCTOR ANSWERS  
BY EDWIN P. JORDAN, M.D.**

**QUESTION:** I had a tick bite two years ago and it hasn't healed yet. What do you advise?

**ANSWER:** There is probably some chronic infection present which has prevented healing. Quite likely simple surgical treatment would help.

Got The Whole Pack in a Dither

The CAMEO

A BLAST from the pistol reverberated through the room and Reddy heard the sound of shattering pottery behind him. From his crouching position he made a blind tackle at Tom O'Neill's legs and heard Tom grunt as he hit the brick floor. Once more Reddy encountered Tom's astonishing strength as the older man thrashed around beneath him. He grabbed frantically for Tom's right arm.

The gun thundered again. This time Reddy could feel the vibration of its mechanism under his hand—the hand locked around Tom's wrist.

Reddy let go of the suddenly limp muscles. The cold sweat of horror began to drain from his pores as, for a second or two, he stared down at the red pulp that had been Tom's face.

Backing away, he stumbled over the broken figurine and looked down at it stupidly. The blue clay, and what it had concealed, were without significance now. Reddy sagged against the work bench, staring at its untidy collection of objects that, unexplainably, had assumed the mute poignancy of a dead child's toys.

Gradually, a distant pounding seeped into his consciousness. He took note of it numbly—somebody at Tom's front door. A louder sound, now, a splintering, tearing sound.

Chief Peters surged into the room. "Charlie! Did he get you? We heard the shots—" he broke off as his eyes found Tom O'Neill.

Trotter came up behind him, followed by a patrolman. Peters took off his hat. "Murderer and all that," he mumbled, "but, in some ways, O'Neill was a likable old boy." Peters nodded. "Good thing. I mean, good thing he blew his own head off instead of going for you." He pointed to a streak of blood on Reddy's jacket. "What's that? You get nicked someplace?"

denly white face—"unfortunately, met with a fatal accident. It was assumed that Madame Serenov, who had fled to America, carried with her the knowledge of where the jewels were hidden. A certain personage, who later was questioned by the new government, suggested that Mme. Serenov's famous cameo locket contained the information that was sought."

Yakov's voice trailed off as he finished with: "I have merely been searching for information which would enable the Russian treasury to obtain new and much-needed resources. This I did because of certain obligations which remain behind me in the mother country."

"This Dr. Ulrich probably has 'em all safe and sound at St. Petersburg College!" Hagar decided.

Yakov shook his head. "Dr. Ulrich was—I believe the popular term is, liquidated—in 1939."

TROTTER returned his pipe to the leather pouch. "What do you think is the significance of the special edition of 'The Cherry Orchard' mentioned in the paper?"

Yakov gave a slight shrug. "That, also, has been wheeled through my mind like a canopied cart. It would be unlikely that there would be a special bound edition of a single play—the work would not be of sufficient importance to occupy an entire edition. I think, perhaps, that this very fact signifies that the book would not be what it appeared. Something which seemed to be an elaborately bound book, perhaps the type with a little lock across the pages, could, in reality, be something else. A fine little casket in which the Orloff bracelets and rings and brooches and unset gems could rest quite snugly. So? It could quite possibly be that Dr. Ulrich's special edition of Mr. Chekov's play could be the sum worth the disproportionate sum worth the disproportionate sum worth the disproportionate sum took care that this fabulous book was safely hidden away before he was brought to trial." Yakov sighed. "The quest will go on, but this time I shall not be among the hunters."

What's  
RIGHT?

**SITUATION:** You have invited a couple over for the evening and your very young child wants to stay up to "see the company."

**WRONG WAY:** Let him stay up way past his bedtime.

**RIGHT WAY:** Put him to bed at the regular hour or if you do let him stay up to greet the guests, put him to bed after a few minutes. (A small, tired child makes so many demands on his parents they cannot give their guests the attention they should.)

• Q's and A's

Q—How does the depth of the present-day oil wells compare with those of 20 years ago?

A—Twenty years ago a 9000-foot well was considered an epic achievement. The first 15,000-foot well was drilled in 1938. Since World War II, four wells in succession have set new records below that depth, and a well in Wyoming, not yet completed, is now below the 20,000-foot mark.

Q—What was the first country to adopt Christianity?

A—Armenia was the first country officially to embrace Christianity.

THE STORY OF THE SAVIOR

The Great Homecoming

BY WILLIAM E. GILROY, D. D.

"There went out a decree from Caesar Augustus that all the world should be taxed." (Luke 2:1, 3.) Everyone was ordered to return to his home city to register.

"Joseph went up from Galilee unto the city of David, which is called Bethlehem . . . to be taxed with Mary, his espoused wife, being great with child." (Luke 2:4, 5.)

When they arrived in Bethlehem the place was crowded with homecomers and there was no room for them in the inn. But the innkeeper put them up in the stable.

And it was here that Christ was born. "And thou Bethlehem, in the land of Juda, art not the least among the princes of Juda: for out of thee shall come a Governor, that shall rule my people Israel." (Matthew 2:6.)

# Stamps

## In the News

By Syd Kronish

The official design of the new 3 cent U. S. stamp honoring the 75th anniversary of the American Bankers Association has been announced by the Post Office Department. It will be placed on first day sale a. j. n. 3, 1950 at Saratoga Springs, N. Y.

The central design, half of a coin, depicts some of the fields in which the banks give service. A home symbolizes daily life; a farm our raw products; a train our transportation. In the sky is a factory. Around the border is the wording "American Bankers Association." The dates 1875-1950 appear in the upper left and right corners respectively.

The ABA is a national organization representing 97 per cent of all the banks in the U. S. There were 16,443 members at the close of the last fiscal year ending Aug. 31, 1949.

Seventeen banks met in New York in 1875 and issued a call for a convention which was held the same year at the Town Hall of Saratoga Springs, N. Y.

The aim of this association is "to promote the general welfare and usefulness of banks."

Stamp collectors desiring first day covers may send a limited number of addressed envelopes, not in excess of 10, to the Postmaster at Saratoga Springs, N. Y., with a postal note or money order.

Algeria has issued a new semi-postal dedicated to the 25th anniversary of its first stamp, reports the New York Stamp Co. The 15 fr plus 20 fr brown picture an equestrian statue with an airplane flying overhead.

To commemorate the inauguration of the Voortrekker Monument at Pretoria, the Union of South Africa has issued three new stamps. They will bear bilingual inscriptions but will not, as was the case with the recent UPU issue, be printed alternately in English and Afrikaans.

The 1 penny red depicts the Voortrekkers on their way to Natal. A woman in the foreground is picking up a little lamb which is too weak to walk. A flash of lightning symbolizes the difficulties which this group had to endure in its migratory movement.

The 1½ penny green and gold pictures the Voortrekker monument. The 3 penny blue is in the form of a triptych. The left panel shows a mother with her child and a ewe with her lamb. The panel on the right shows a Voortrekker and his dog. An open bible in the center panel symbolizes the faith of the Voortrekkers.

South-West Africa will overprint the same issue with "SWA."

France has issued another set in the series of famous Frenchmen, reports Leon Monosson. This set contains six stamps, each bear-

Watteau, 12 fr plus 4 violet — Buffon, 15 fr plus 5 pink — Duplex, 25 fr plus 10 blue — Turgot.

Liechtenstein, the little principality, issued a set of three new stamps in honor of the 25th anniversary

of the purchase of Schellenburg. Little Liechtenstein covers an area of only 60 square miles and consists of two counties, Schellenburg and Vaduz. Since 1921 this country's post office has been administered by Switzerland. The 150 rappen orange red bears a portrait of Prince Von Liechtenstein who was responsible for the purchase of Schellenburg. The 20 rappen violet illustrates Rossau Castle. The 40 rappen blue shows the Bendern Church.

To commemorate the reconstruction of the Chain Bridge of Budapest, a set of five stamps has been issued by Hungary. The bridge was originally opened to traffic on Nov. 20, 1849 but was destroyed by the Germans during World War II. The designs depict the Chain Bridge surrounded by central Europe, has by laurel leaves.

Says Hospital Is Good for You

OMAHA, Neb.—(P)—A short stay can be good for what ails you—even if your trouble is no more than a nagging wife or a business worry. Dr. Lauren Home Smith told the Midwest Clinic society at a meeting here that short periods of hospitalization are good for persons suffering from neuroses. These help the patient get away from his acute problems and

Round Trip To School

PEARL HARBOR—(P)—When Maresabang heard about the U. S. Navy wanting to educate the Pacific islanders he left his home on Palau. He arrived here aboard the Navy transport General William Mitchell. The Immigration service said he couldn't expect to begin his search for learning going

by stowing away. They wouldn't even let him come ashore. The sympathetic Navy came aboard. Maresabang said he stowed away because he wanted to enroll at the University of Hawaii. Fine, said the Navy, but first he would have to go to school on Palau. And that's where Maresabang is

**A&P PRICE-MARKS EVERY ITEM IN THE STORE**

To Make It Easier for You to Check Your Food Purchases

Because every article at your A&P Super Market has the price marked right on it, you can easily keep track of what you're spending as you shop... easily check your purchases with your A&P cash register slip as you're putting them away. That means you can always be absolutely sure that you're getting the best possible value for every cent you spend and paying the correct price for every item you buy. We think this price-marking policy will save you time and trouble and make your A&P Super Market a better-than-ever place to shop. Stop in and see if you don't agree!

**Customers' Corner**

The anti-trust lawyers who want to put A&P out of business don't like our low price policy. They say we use it to drive competitors out of business.

Actually, as every customer knows, our low price policy is designed to do just one thing: Give you more good food for your money. Here are the facts about our low price policy:

1. We keep our profits at a minimum. They averaged less than 1½ cents on each dollar of sales during the past five years.
2. We have for years had a strict policy against below-cost selling.
3. We do not have any "week-end specials" but feature low prices the whole week long.
4. We charge the lowest practical prices everywhere we operate.

That is why we say, regardless of where you live, you will save money week in and week out by doing all your shopping at A&P.

Mrs. A. N. Baker, assisted by Mrs. L. L. Ream, was hostess at a tea on Thursday afternoon, December 1, at her home in Green Ridge to the members of the Missionary Society of the Green Ridge Presbyterian church. Mrs. Mattie Meyers called the meeting to order and the chairman of the nominating committee, Mrs. G. D. Rayburn, presented the following report, Mrs. Mattie Meyers president; Mrs. George Weller, vice president; Mrs. Walter Brown, secretary, and Mrs. J. M. Palmer, treasurer, who were elected for the coming year. The program for the afternoon was a review of the book, "Missions at the Grass Roots," by Dr. John William Schriver. Mrs. Carl Johnson reviewed the book in a very interesting manner.

Tea was served from a lace covered table with a centerpiece of a horn of plenty. Mrs. J. W. Kirchner and Mrs. Wilford Ackers poured from either end of the table.

There were twenty-six present including the following guests: Mrs. H. H. Ream, Mrs. Myrtle Boltz, Mrs. Loy Smith, Mrs. John Purchase, Mrs. Russell Miller, Mrs. Roy Ragar, Mrs. J. A. Gordon and Mrs. O. A. Ayers of Toledo, Ohio.

At the school board election which was held on November 29, at the school building, the following board of directors was elected to serve district R-8: Clarence Purchase, Harley Williams, Wayne S. Stark, Raymond Neitzert, Earl Case and Paul Rothenberger. Mr. Clarence Purchase is the president of the board of directors.

Mr. and Mrs. Roy Calvert visited over the Thanksgiving holidays with their daughter, Mrs. James Ardrey, and Mr. Ardrey at their home in Kansas City, returning to their home in Green Ridge on Monday.

Mrs. J. M. Palmer visited with her mother, Mrs. Mary Garoutte on last Friday at her home in Windsor. Mrs. Townsend Wilson and son Charles were guests also in the Garoutte home.

Recent dinner guests in the home of Mr. and Mrs. George Weller were: Mr. and Mrs. Floyd Beemer and son and Bus Beemer, Mr. and Mrs. Burnell and children were afternoon callers.

Mr. and Mrs. Joe Floyd of Jefferson City, were week-end guests in the home of Mrs. Floyd's parents, Mr. and Mrs. Calvert in Green Ridge.

Mr. and Mrs. Floyd Brownfield and son Paul Ray were hosts at a dinner at their home on Sunday, November 29, in Green Ridge. Those present were: Mr. and Mrs. Clarence Pummill and son Franklin, Mr. and Mrs. Raymond Bolin and Mr. and Mrs. Paul Hill of California, Mr. Clifford Brownfield and children, Eugene and Betty and Mr. and Mrs. Gordon Brownfield and son Duane of Green Ridge and Mr. and Mrs. Stanley Warren of Windsor.

Mr. and Mrs. J. W. Johnston of Butler were in Green Ridge last Sunday for a visit with Mr. Johnston's nephew, W. C. Haynes and Mrs. Haynes.

Funeral services for Larry Dale Chaney, son of Mr. and Mrs. Roy Chaney, who was born Saturday morning, November 26, at the Bothwell in Sedalia and died at the hospital on Sunday morning, was held at 11:00 o'clock Monday morning at the Green Ridge cemetery, with the Reverend R. I. Clemings of Calhoun, pastor of the Green Ridge Baptist church, officiating.

## CREAMO ONLY MARGARINE WITH CREAM

5 out of 6 choose Creamo in Taste-Test

That's the reason Creamo Margarine was chosen by 5 out of 6 children in a hidden name test of brand names. It's easy to understand why parents and children choose Creamo more delicious and a sweeter, better spread. And because Creamo is the only margarine made with cream, it's easy to understand why more people, every day, are asking for Creamo Margarine. They know that Creamo's extra flavor means more delicious food, eating and greater economy, too. Especially in flavoring other foods, hot vegetable dishes and for baking and frying. You'll never know how extra delicious Creamo really is until you try it yourself, so be sure to get a pound of Creamo, today.

Glorifying the Yule Fruit Cake

By Cecily Brownstone  
Associated Press Food Editor

This year try a new holiday dessert. Serve your Christmas fruit cake with a wonderful array of sauces. You can make both the cake and the sauces well in advance — they'll keep beautifully for several weeks.

Both the cake and the sauces are perfect for gifts. The cake may be baked in aluminum foil containers and then simply wrapped with ribbon. The sauces can be packed in covered containers — the latter to double for refrigerator jars later on.

Christmas Fruit Cake

Ingredients: 1 cup mincemeat, 3 medium-sized apples (peeled and cored), 1 cup raisins, 1/4-cup candied cherries, 2 ounces citron, 1 cup orange juice, 2 cups sifted all-purpose flour, 1 teaspoon of baking powder, 1/2 teaspoon salt, 1 teaspoon cinnamon, 1 teaspoon ginger, 1/2 teaspoon nutmeg, 1 cup sugar, 2 eggs (well beaten), 1/2 cup molasses, one-third cup butter or vitaminized margarine and melted, 2 teaspoons sherry flavoring, 2 teaspoons brandy flavoring.

Method: Put mincemeat, apples, raisins, cherries and citron thru a coarse grinder and stir in 1/2 cup of orange juice. Mix and sift the flour, baking powder, salt, cinnamon, ginger, nutmeg and sugar. Mix the eggs and molasses together; heat the remaining 1/2 cup orange juice and add; gradually beat in the melted butter or margarine. Add sifted dry ingredients and stir until smooth. Fold in fruit and flavorings. Pour into 2 well greased glass or metal 1-quart size loaf or round pans. Bake in a moderate (350 F) oven for 1 1/2 to 2 hours.

Orange Citron Sauce

Ingredients — 2 tablespoons of butter or vitaminized margarine, 1 cup confectioners' sugar, two tablespoons finely chopped citron, 1 tablespoon orange juice, 1/4 teaspoon orange flavoring, dash of salt.

Method: Cream the butter or margarine; gradually blend in the sugar; add the citron, orange juice, flavoring and salt and mix well.

Holiday Sauce

spoons brandy flavoring, dash of salt.

Method: Cream butter or margarine; gradually blend in sugar, flavoring and salt and beat well.

Caramel Walnut Sauce

Ingredients: 1 1/2 cups sugar, 1/2 cup butter or vitaminized margarine (melted) dash of salt, 1/4 cup finely chopped walnut meats.

Method: Stir sugar in saucepan over low heat until melted; add butter or margarine and salt, and stir in walnuts.

Yule Safety

Christmas, the merriest time of the year, frequently is the time of unexpected disaster.

In our effort to have a bright and gay household, we burn more lights than usual, taxing our electric light circuits, we use lighted candles and lots of paper decorations, all fire hazards.

There are very few Christmas trees that really are flameproof safety experts tell us, and the ordinary Yule tree is one of the most flammable objects known.

If you want to have a safe Christmas observe these rules:  
1. Keep the Christmas tree outdoors until ready to install it. Place it in the coolest part of the house, shutting off the

radiator closest to it. Do not put electric trains around it. Be sure tree lights do not burn when no one is in the house. If needles near lights start to turn brown change the location of the lights. When needles start falling, it is time to discard the tree.

2. Avoid decorations near the chairs where people may smoke. If lights are desired in windows, do not use candles. Keep curtains and other flammable material pulled back at least six inches from electric light. Use non-flammable decorations of glass or metal and "fireproof" snow in decorating. Dispose of all gift wrappings and packing materials after gifts have been opened.

Free Library is Really Free

RICHMOND, Va., —(P)—The Richmond free library is all its name denotes. All of its 5,500 volumes have been donated from persons in all parts of the country, many of them celebrities.

The "famous persons shelf" contains books given by such people as Mary Pickford, Jack Benny, Connie Mack and Gene Tunney. The "governors shelf" was stocked by the governors of 30 states.

More than 300 volumes were presented in memory of departed family members and friends. It was done mostly by Mrs. Ethel M. Culver. She wrote hundreds of letters asking for books and the books came. Residents of the town recently donated funds, materials and labor to remodel the library.

# Santa and the MAGICIAN

## Chapter 4 PLANNING A TRIP TO SANTA LAND

"MAGIC!" cried the President of the College of Science. "We teach no magic here! Are you trying to make me look silly?"

"Why, no," said Mr. Dilly. "I thought—I only meant—" But he could not think of the proper words to calm the great scientist. Then he got an idea. He crossed the room and pressed the electric light switch on the wall. At once the room was filled with electric light.

"There," beamed Mr. Dilly. "That's magic!"

He went into the corner where there was a wash basin. He turned the faucet. Immediately water rushed from the nozzle.

"That's magic," cried Mr. Dilly. "Oh," said the president, smiling. "You mean you wish to study how to do these things?"

"No, no," cried Mr. Dilly. "I would simply like to learn how to get a rabbit out of my hat."

"What!" screamed the president. He turned quite purple with anger.

"Saint's paints!" cried Serena in fright while Henry felt his own knees shake under the scientist's rage.

"You have been wasting my time," exploded the president. "If you believe in that kind of nonsense I guess you even believe in Santa Claus!"

"Oh, I do," murmured Mr. Dilly hurriedly backing through the door.

"Then go ask him your silly questions," roared the scientist and slammed the door.

Mr. Dilly and Henry and Serena went into the street. They were not a bit discouraged because now they had this wonderful advice.

"Santa Claus is the very one who can help us," said Mr. Dilly. "He can do anything and he surely will not mind helping me."

But Henry said, "How will we ever find Santa? I have never even seen him." He wanted to say that Santa had never once been to his house in all his life but he didn't like to complain.

Mr. Dilly said, "There must be a way. I'll have to think it over." He sat down right then and there on the side of the road to think.

Serena snorted. "Duck's luck!" Thinking's no good. I know a Very Important Person in a Very Important Position. He runs a travel bureau and knows the best way to get to anywhere. Come, follow me."

STRAIGHTWAY Serena waddled off and Mr. Dilly and Henry followed. Now this is easier said than done, for Serena took a strange road under fences, across streams, through hedges, and all kinds of places where it was easy for a duck to waddle but very hard for a man and boy to follow.

But they managed and before long they found themselves at a fish pond where there was a sign which read: George George Frothingham, Trouble-Shooter.

"What is a Trouble Shooter, do you suppose?" asked Henry as Serena leaped into the pond and vigorously churned up the water.

Before Mr. Dilly could reply, a bewhiskered purple-haired dwarf sprang from the water and ran round and round the pond all the time shooting a pair of guns into the air, hurting no one but making a big noise.

"Murder, murder! Demons! Demons! Timbuctoo and a Roundabout!" screamed Serena, terrified into a truly heroic burst of rhyming.

At that the dwarf opened his eyes (he'd had them squeezed shut all the while), stared about

THE DWARF RAN ROUND AND ROUND SHOOTING A PAIR OF GUNS INTO THE AIR.

him, then said, "Oh, it's you, Serena. Why didn't you say so? I've wasted all those shots."

"Hoddy Toddy," cried Serena. "I never had a chance to say so. Rippity, hippity, I've brought my friends here and—"

"Stop that silly rhyming!" roared the dwarf.

At this point Mr. Dilly stepped forward and said, "Please don't quarrel, Mr. Frothingham—if you are Mr. Frothingham—"

"George George Frothingham," said the dwarf stiffly. "I'm a trouble shooter and I shoot trouble wherever I find it."

"Well, we don't want to cause trouble," said Mr. Dilly. "We want to get to Santa Land and Serena says you can tell us the way."

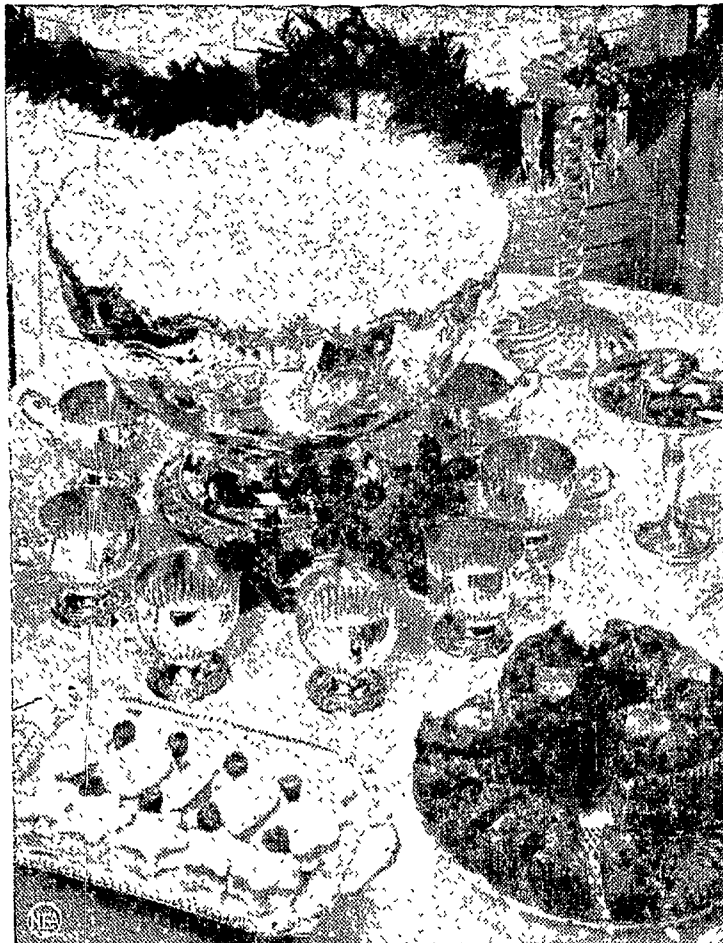

"Perhaps," said George George. He pulled out from under a bush a brief case. He opened the case and out came the strangest pile of time tables, schedules and maps man or boy or duck had ever seen.

Next: Magic Route to Santa Land.

They earned it. In completing the operation in five minutes and one second they had set a new record in the annual hardrock drilling championships of Mojave's gold rush days celebration.

Parsons and Lewis, employees of a Borax firm and miners for 20 years, shaved 16 seconds off the old record. The operation takes about 45 minutes under ordinary working conditions. Besides prestige, they won \$325 in prizes for their feat.

Girl Scouts' Play  
Also Part of  
Evening's Program

A talk by Gordon Renfrow, of Columbia, director of field service of the State Teachers' Association, and a one-act play, by girl scouts of troop 4, were the principal features of the program at the meeting of the Smith-Cotton High School Parent-Teacher Association Tuesday night at the school.

Mr. Renfrow, who was introduced by Prof. Joe Benson, principal, spoke on the subject, "Legislation and Finance in Missouri Schools." He reminded his listeners of the close cooperation which has always existed between the State Teachers' Association and the Missouri Congress of Parents and Teachers. He said that school legislation enacted through the years, on which they cooperated, has included the compulsory school attendance law; the free textbook law; the uniform course of study; the teacher retirement law; and the adoption of the new Missouri constitution in 1945.

**Refers to School Laws**

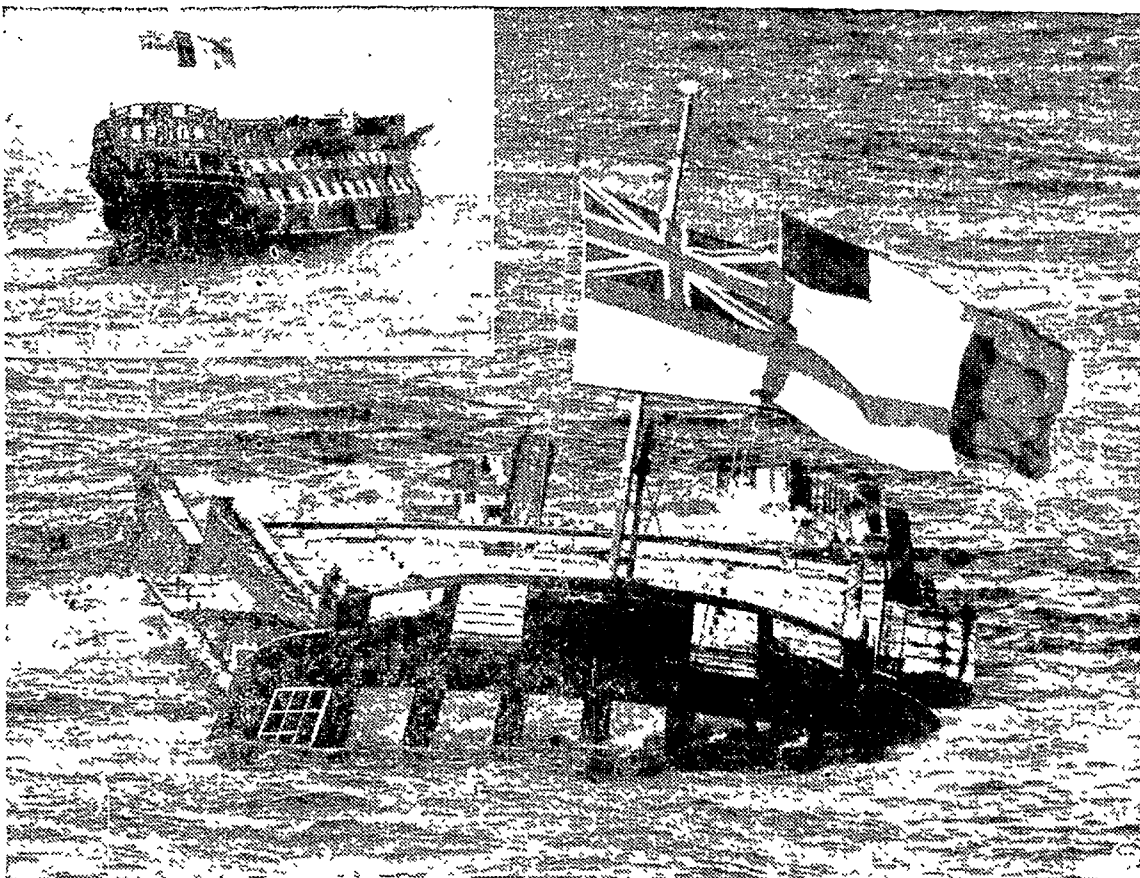

Major educational legislation supported by the two organizations, which has been enacted by the 65th General Assembly since last January 1, he enumerated as: House Bill No. 103, an amendment to the teacher retirement law which raises the maximum retirement pay for teachers from \$75 to \$125; Senate Joint Resolution 3 which will be Proposed Constitutional Amendment No. 1, to be submitted at the November, 1950 election, and which will make possible the voting of levies for current school purposes by majority vote; House Bill 23 concerning the appropriation for schools; House Bill 69, the school bus law which requires other vehicles to stop when school buses are loading and unloading; and a law against the molestation of children.

**Girls Scouts' Play**

Alice Rissler, president of Girl Scout Troop 4, announced the cast of characters for the play, "It's a Woman's Privilege," as follows: Mrs. Lewis, Jeanette Lucas; Margie Lewis, Judy Scotten; Mrs. Lawton, Mary Scotten; Mrs. Robson, Shirley Lucky; Kate Flannish, Elvora Wofel; Cousin Mary, Kay Beth Sublet; and Josephine Ruthanne Zulauf. Stage managers were Carole Pile, Bobby Ann Dale and Betty Jean Thoma.

The Rev. J. W. Waits, chaplain, opened the meeting with a brief devotional service. Group singing was led by William A. Morgan, with Miss Geraldine Teufel at the piano.

**TRAFALGAR VET GOES TO WATERY GRAVE**—Proudly flying both the Union Jack and the French Tricolor, the 152-year-old wooden warship Implacable goes down in the sea off Isle of Wight, England, after being scuttled by the British Navy. Inset shows the old ship being towed to her burial site. One of two ships surviving the famous battle of Trafalgar, the Implacable was captured by the French by the English. Naval leaders of both countries attended the ceremony in which the rotting relic was sent to the bottom.

of Smith-Cotton P.T.A., presided at the short business meeting which preceded the program.

Old Steamer  
Auto Was Afire

McPHERSON, Kas., Dec. 8.—(AP)—A motoring hazard from another generation caught up with Carl Guth.

Driving his Stanley Steamer down the street, the gas burner backfired and flames lapped up around the boiler. He cut the throttle and had the fire out before the firemen got there.

(Note to younger generation: The steamer was a horseless carriage of some 40 years ago. A steam engine furnished the motive power. When the family was to go out for a ride, pop had to go out to the garage an hour or so early to fire up the boiler.)

The handmade American glass industry is largely concentrated today near Wheeling, W. Va., close to deposits of the world's finest silica sand, principal ingredient of glass.
